Baymax:
Hiro.

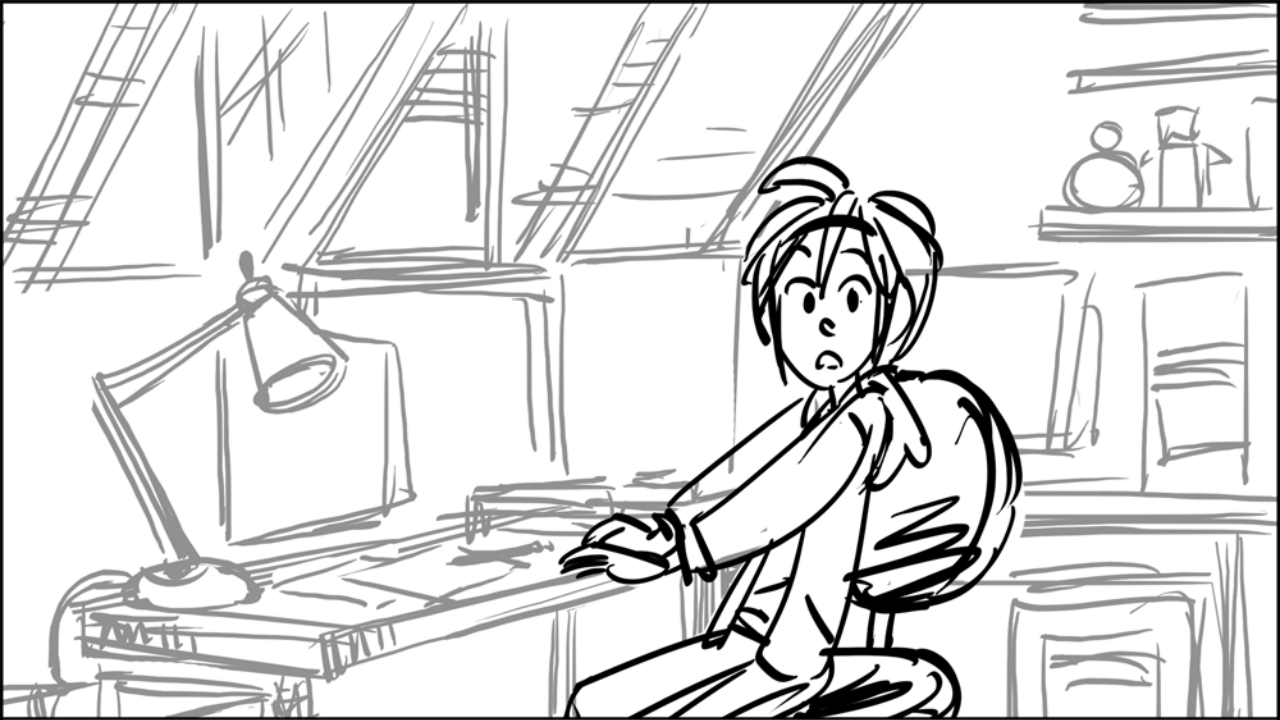

Baymax:

I appear to have found a tiny orphaned bird -

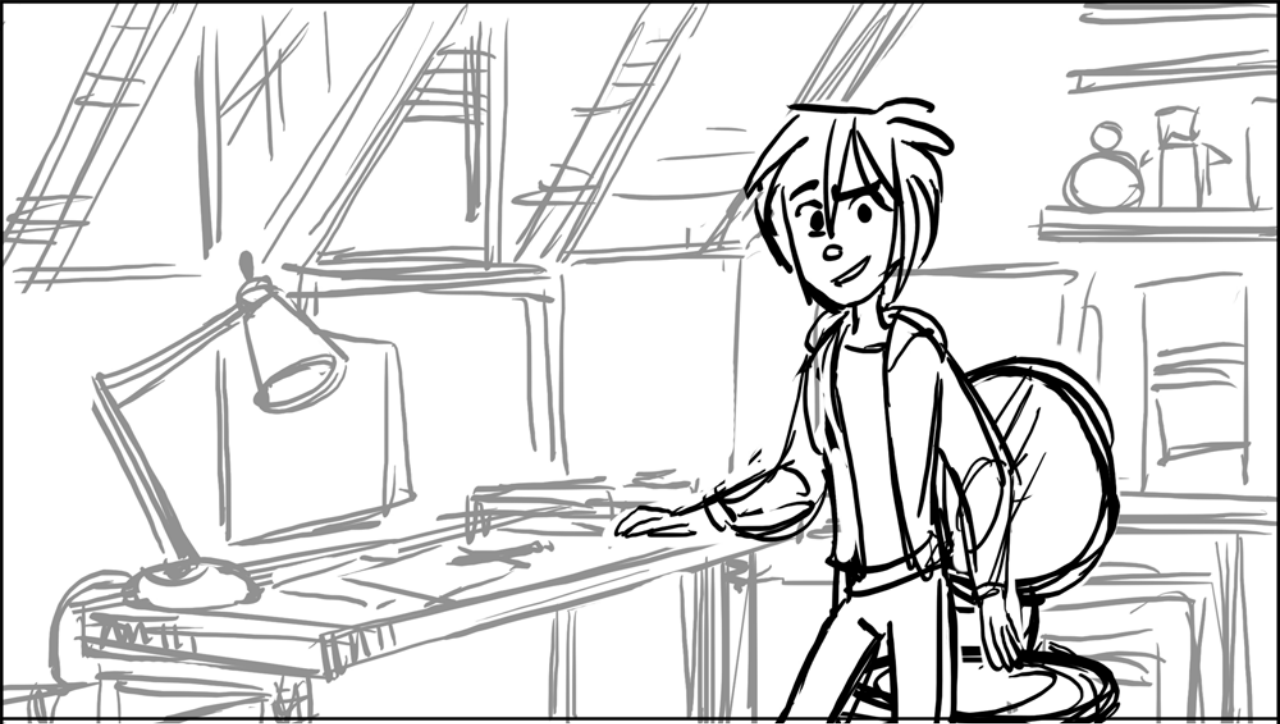

Baymax:

- about to reach full germination.

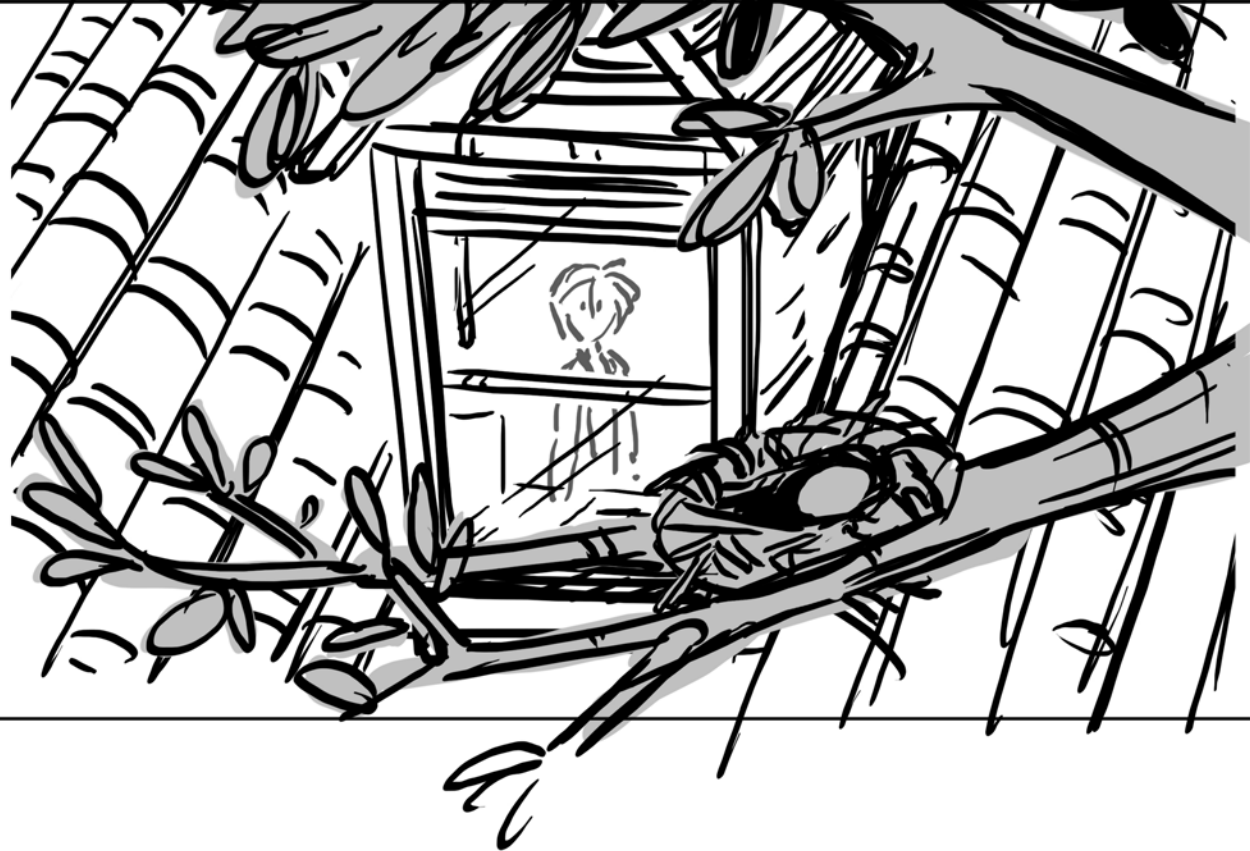

Hiro:
What?

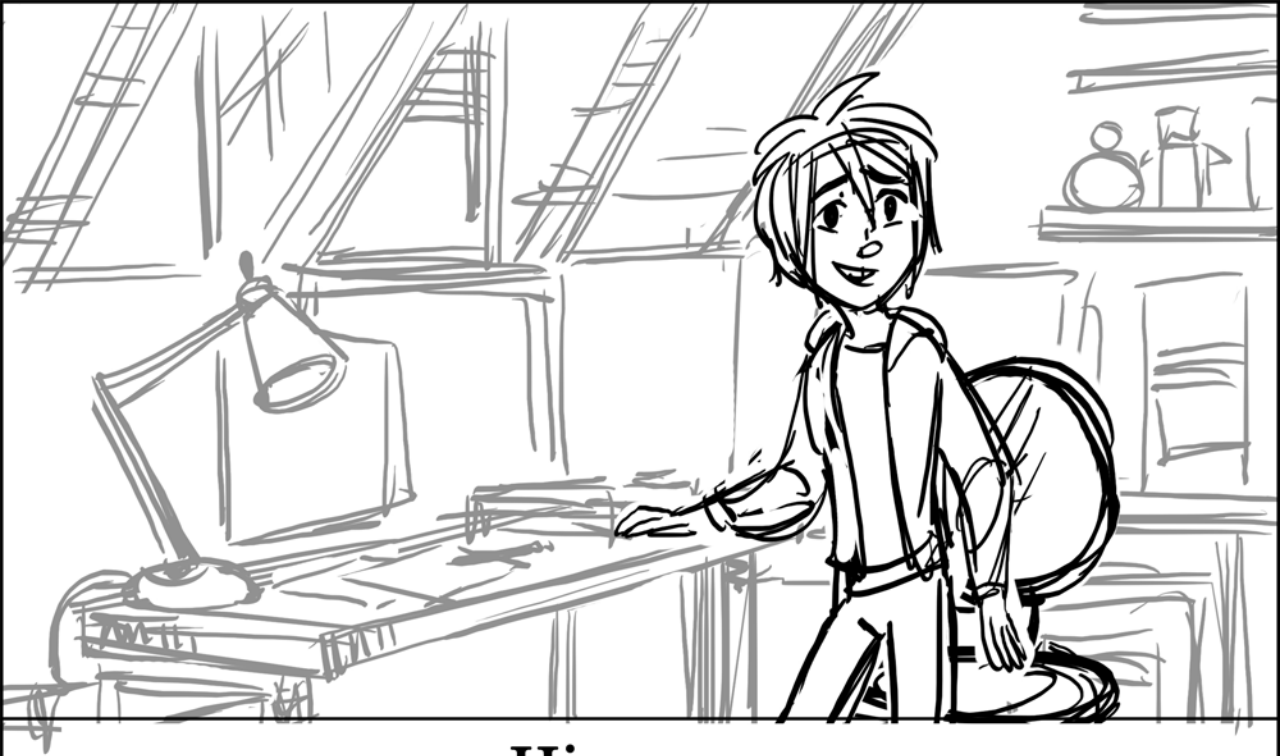

Hiro:
Where did you find that?

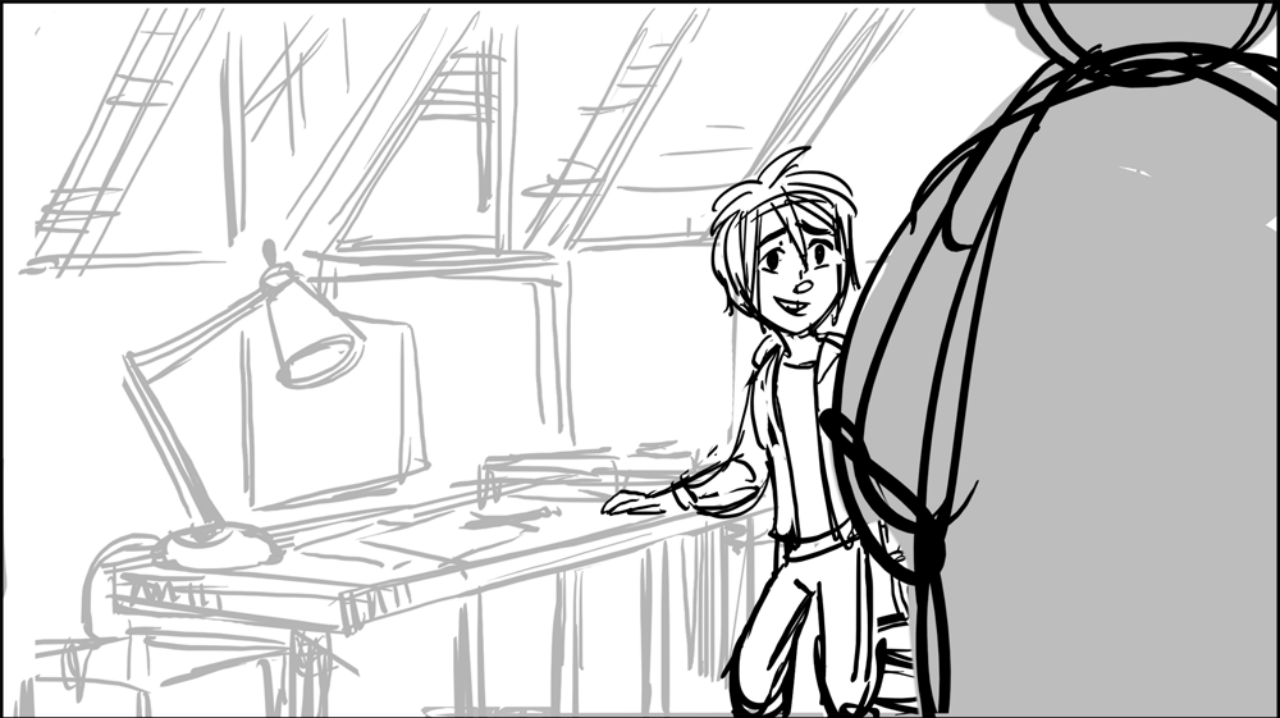

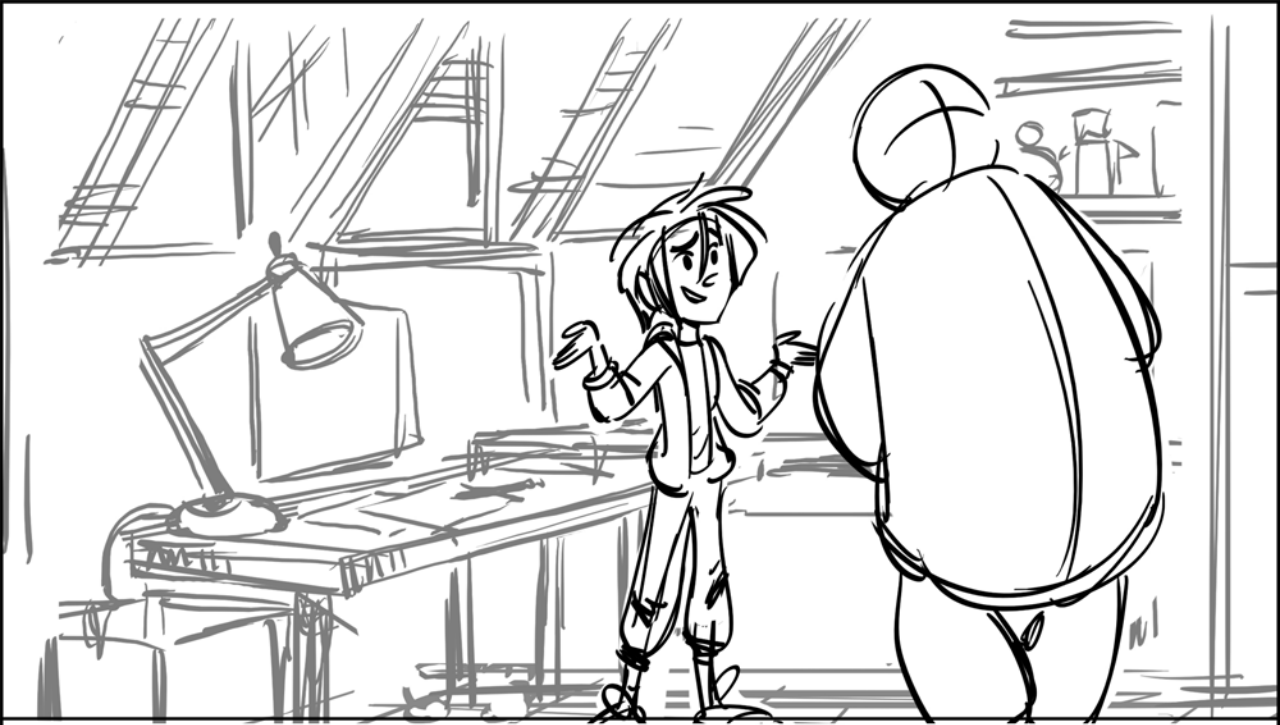

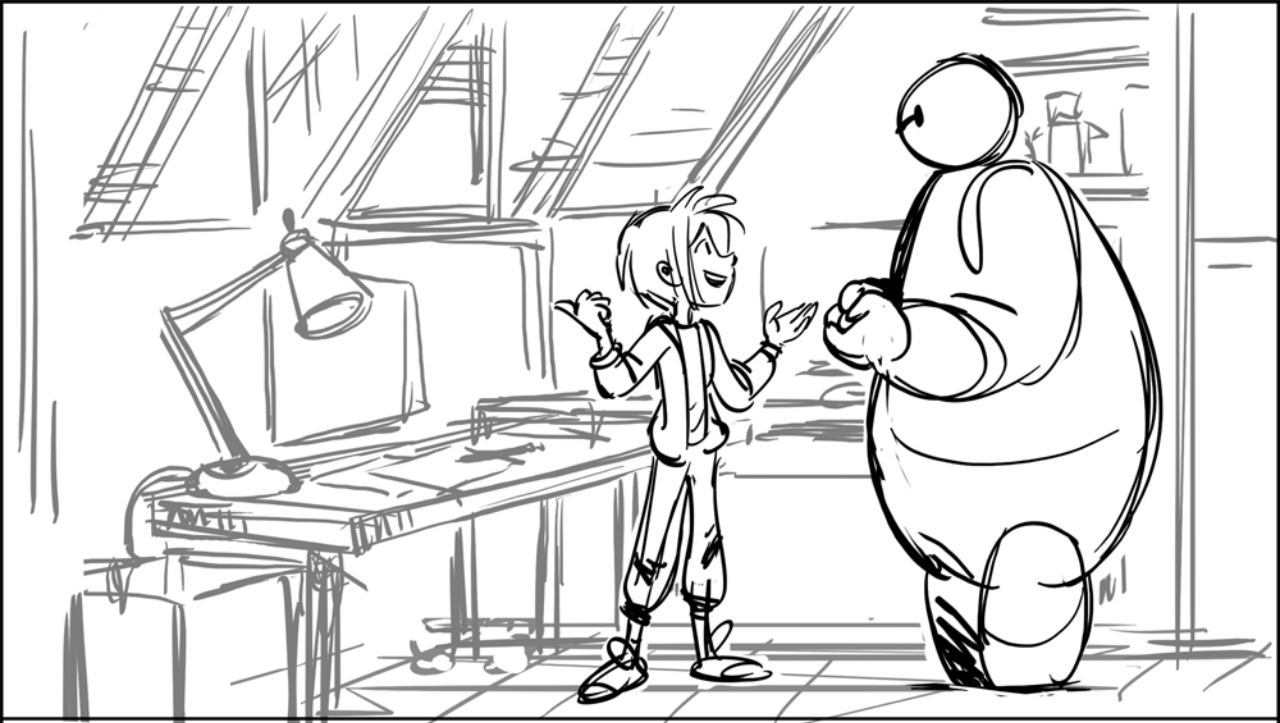

Hiro:
Heh... buddy...

Hiro:
We can't keep it.

Hiro:
Caring for a wild egg isn't easy.

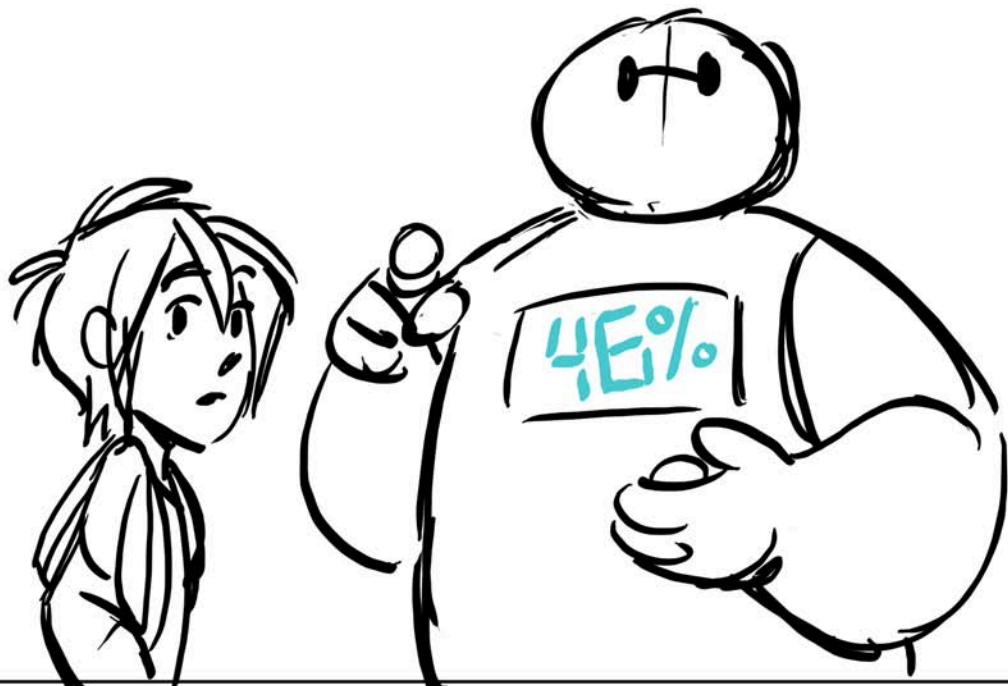

Hiro:
It's kinder if you leave it outside.

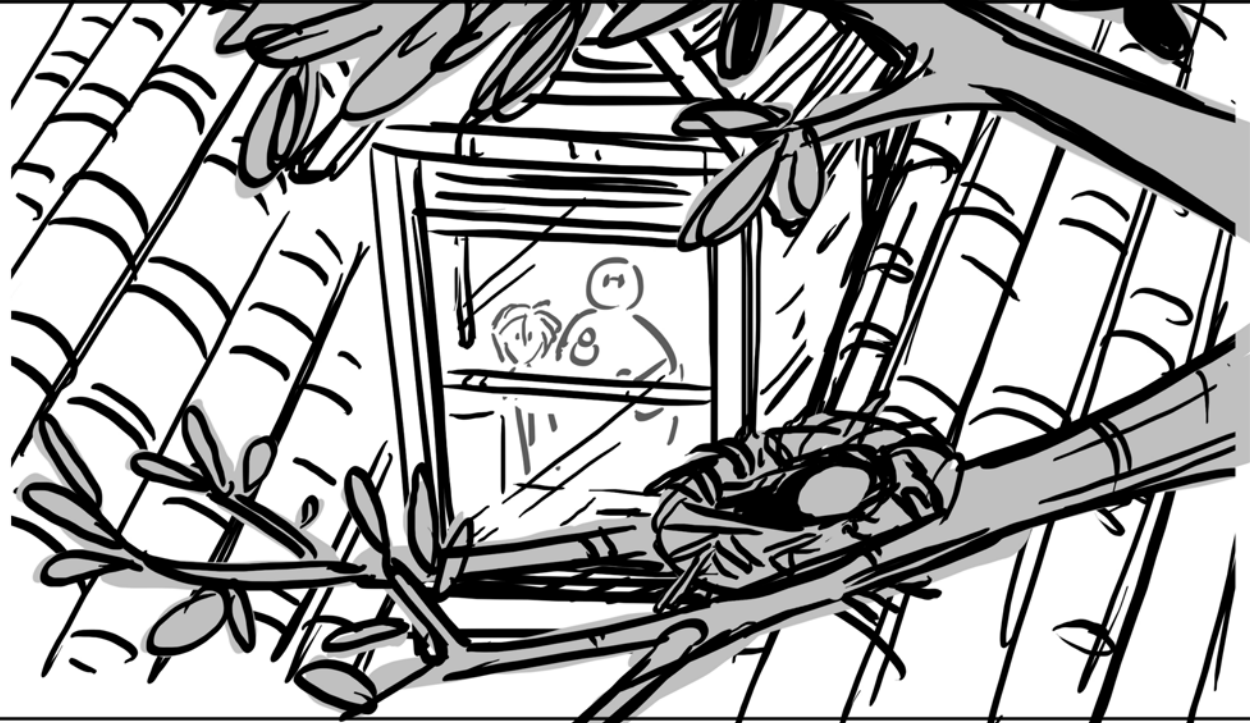

Baymax:

My sensors indicate that if left outdoors,
the egg's chances of survival are low.

Baymax:

My sensors indicate that if left outdoors,
the egg's chances of survival are low.

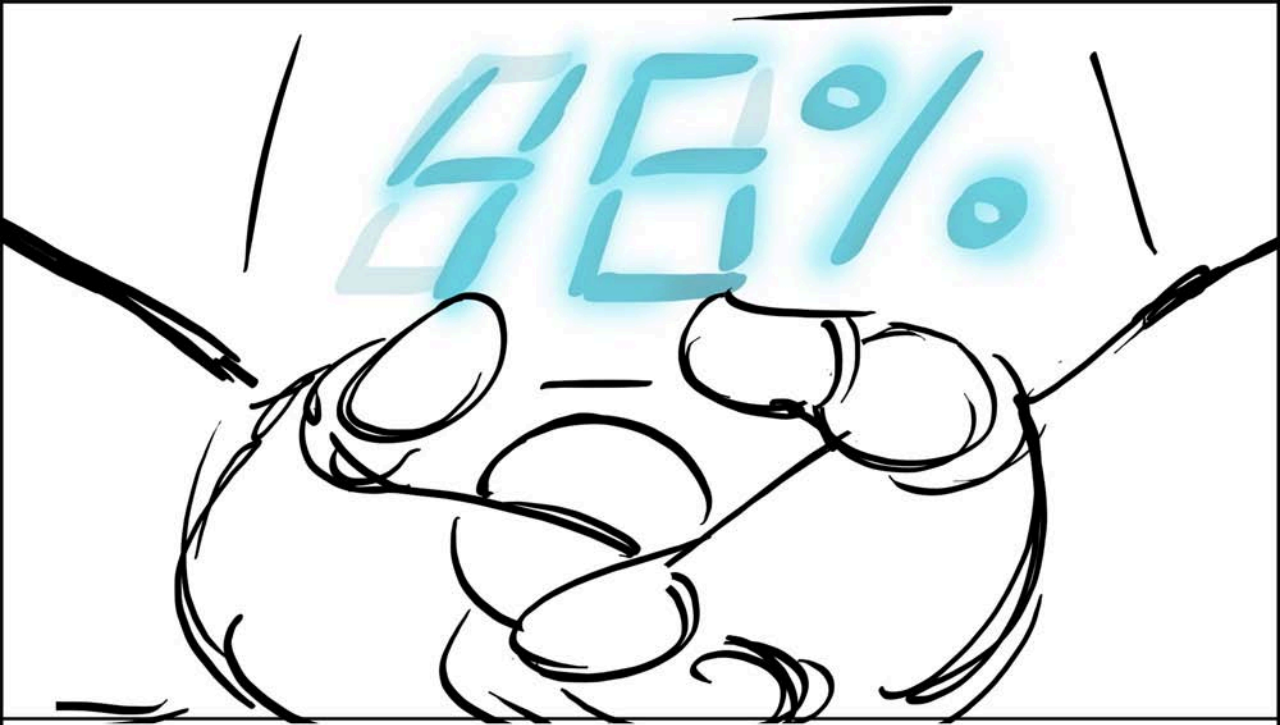

SFX:
wind blowing

Baymax:

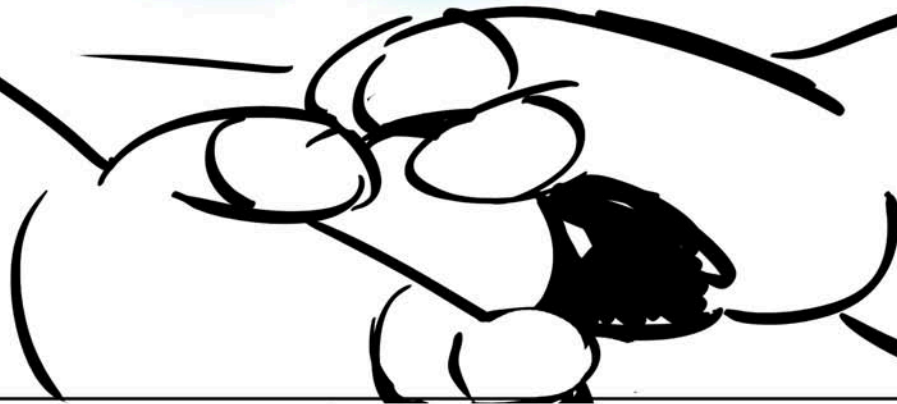

However, with proper care, chances of survival -

Baymax:

However, with proper care, chances of survival -

50%

Baymax:
- increase significantly.

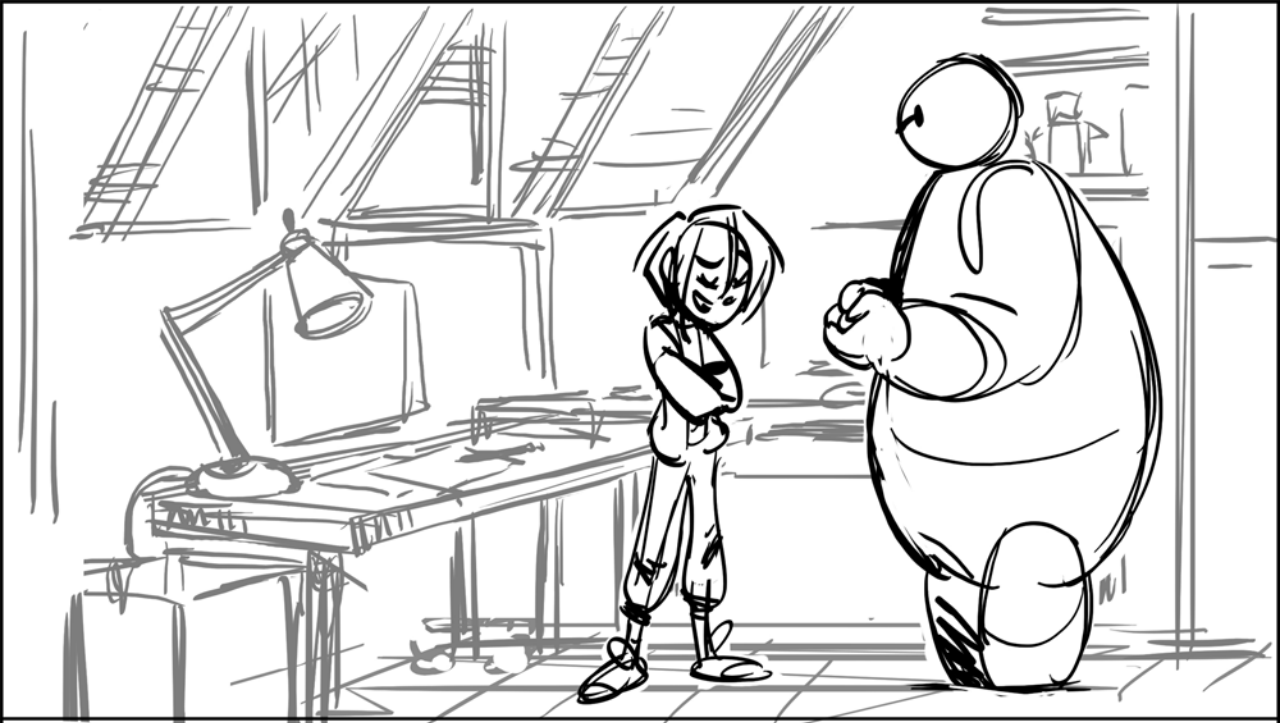

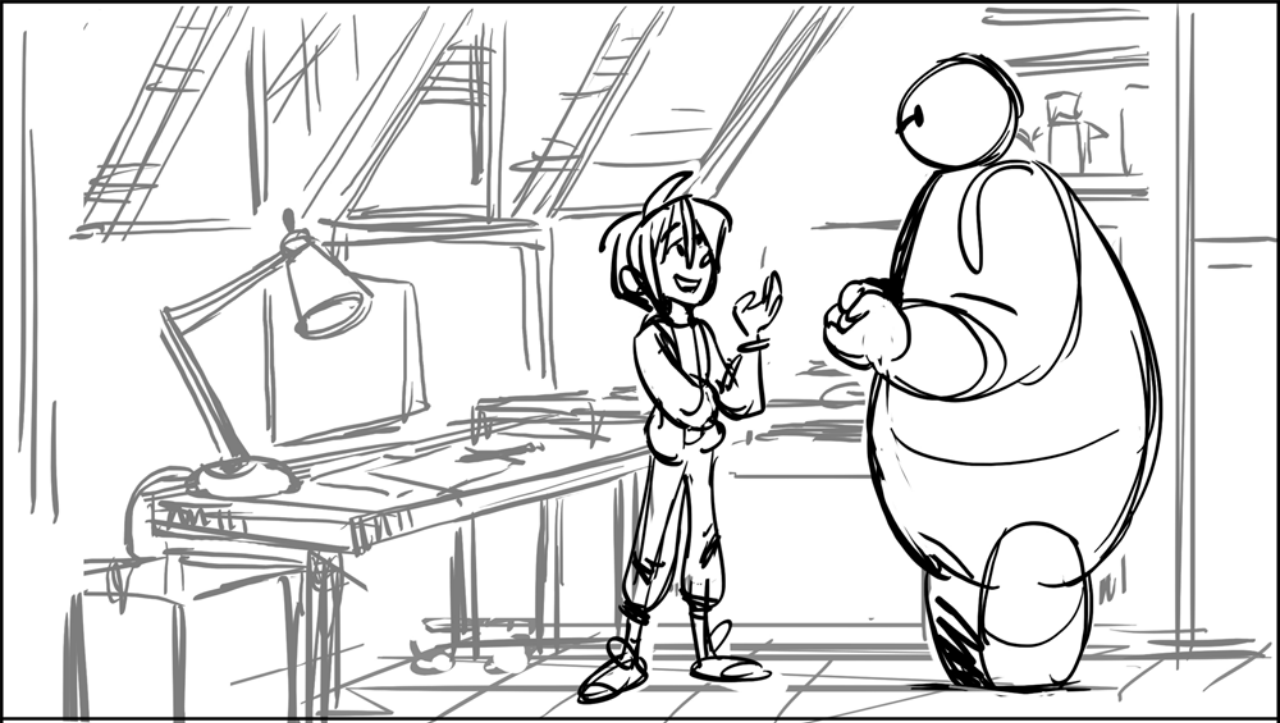

1

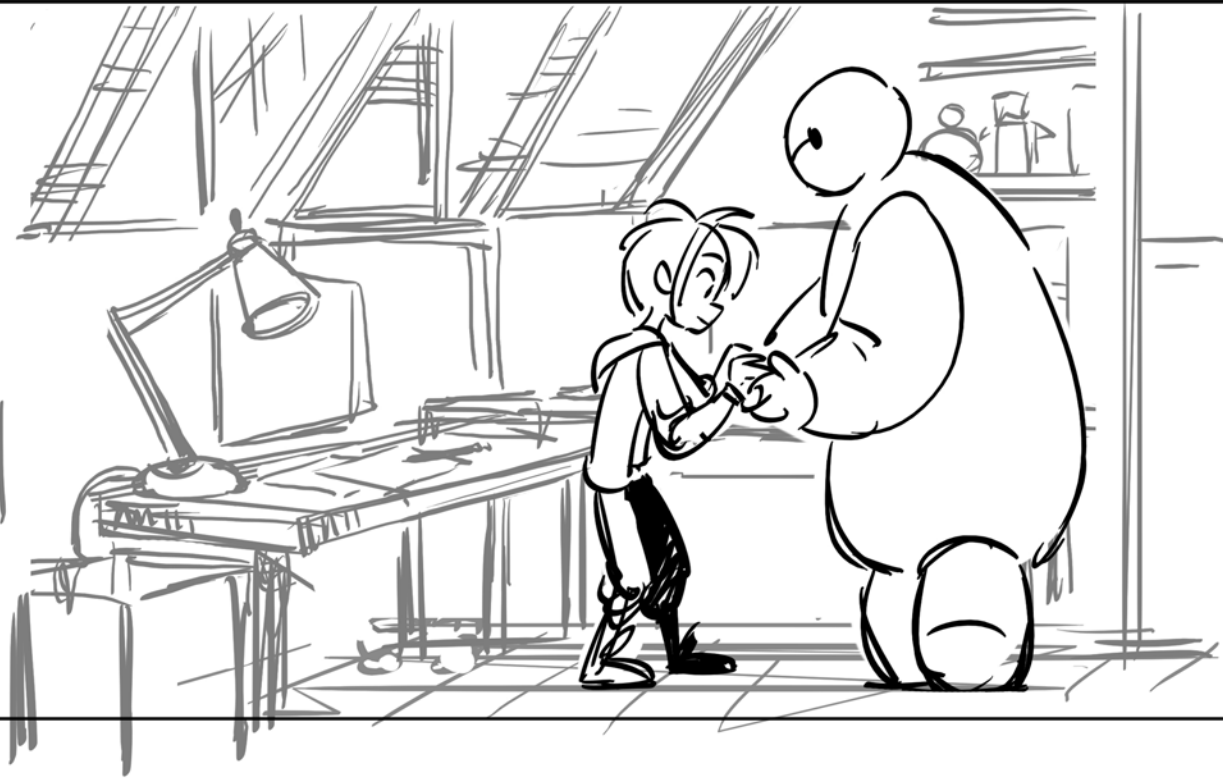

Hiro:
All right, big guy.

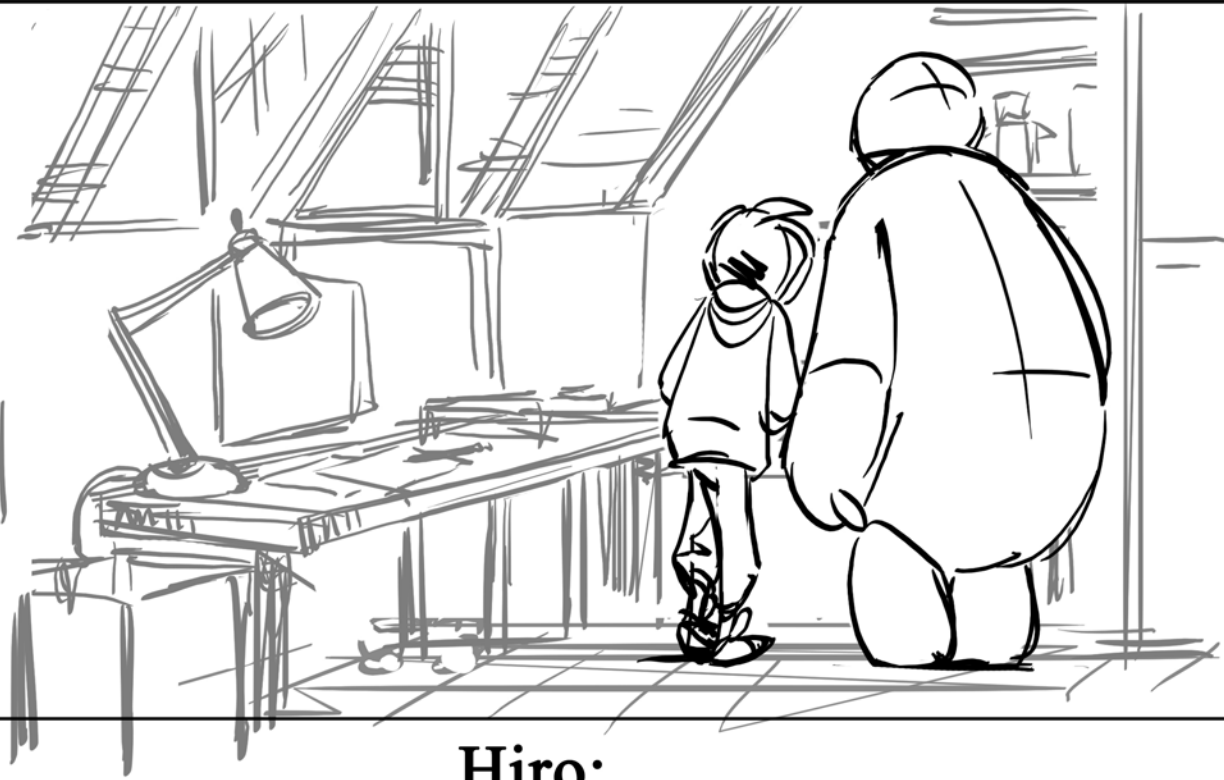

Hiro:
We'll help it out.

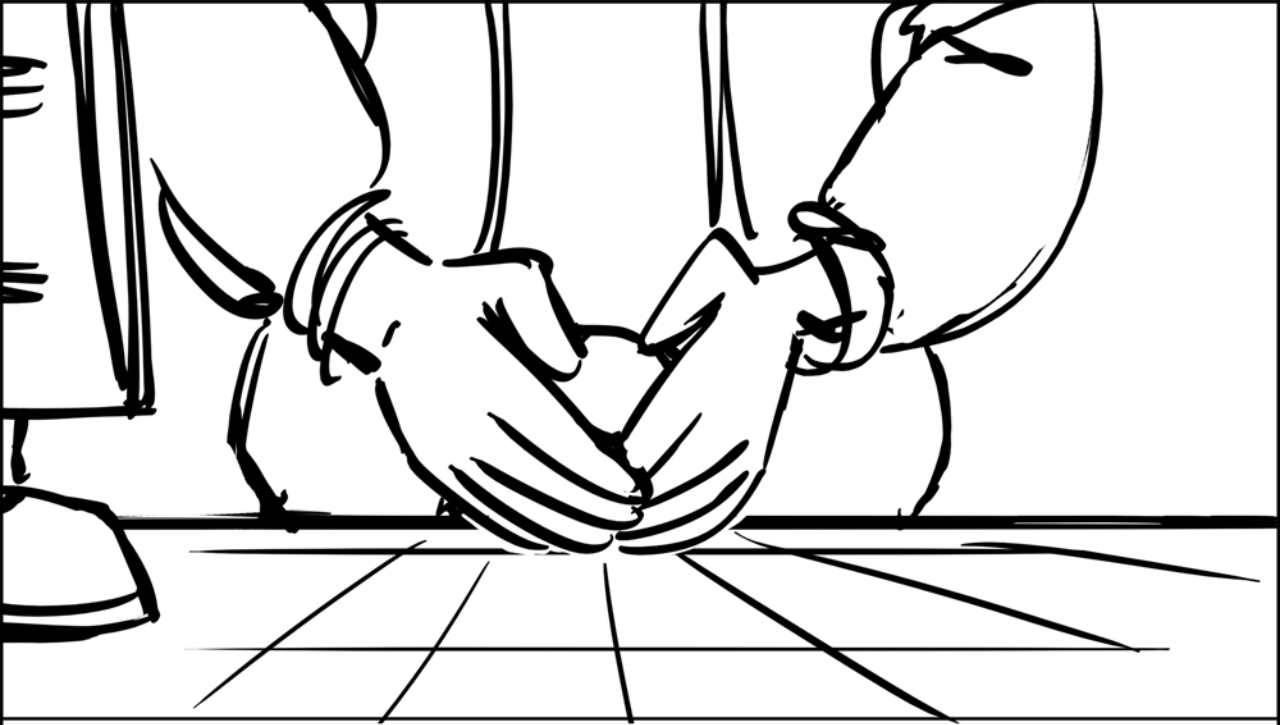

Hiro:
First we need to make an incubator
to keep it warm.

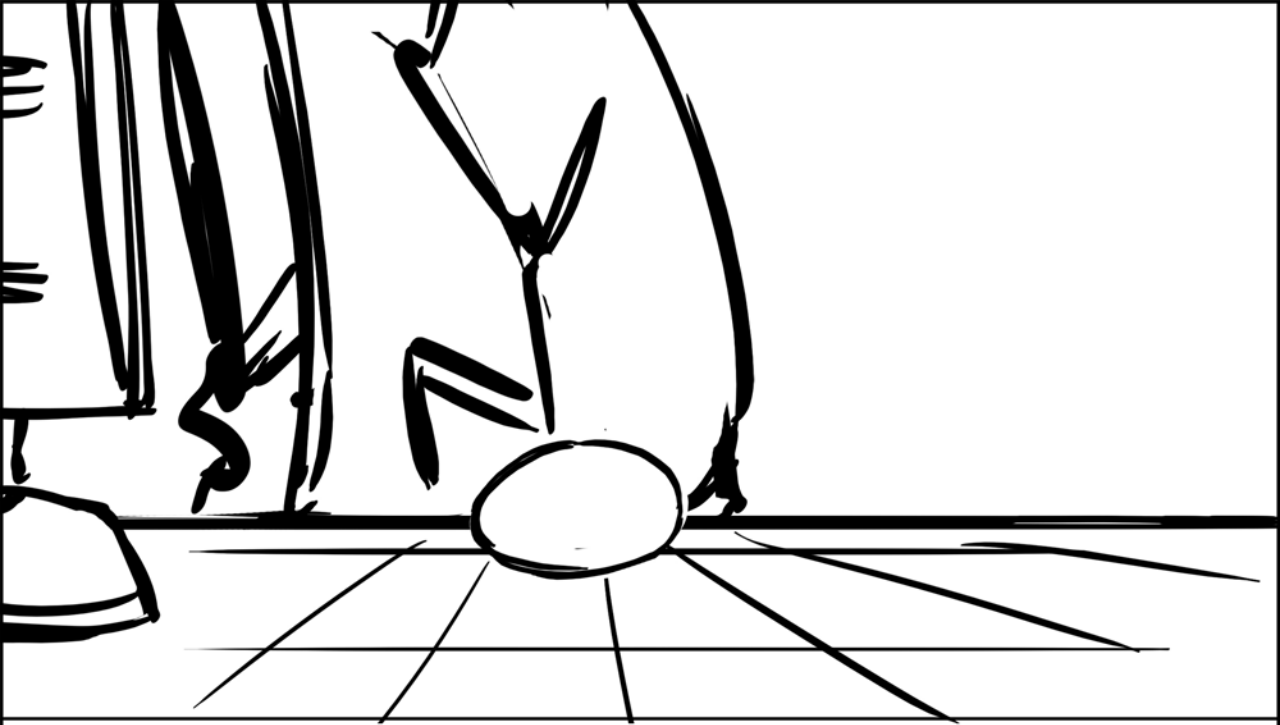

Hiro:
First we need to make an incubator
to keep it warm.

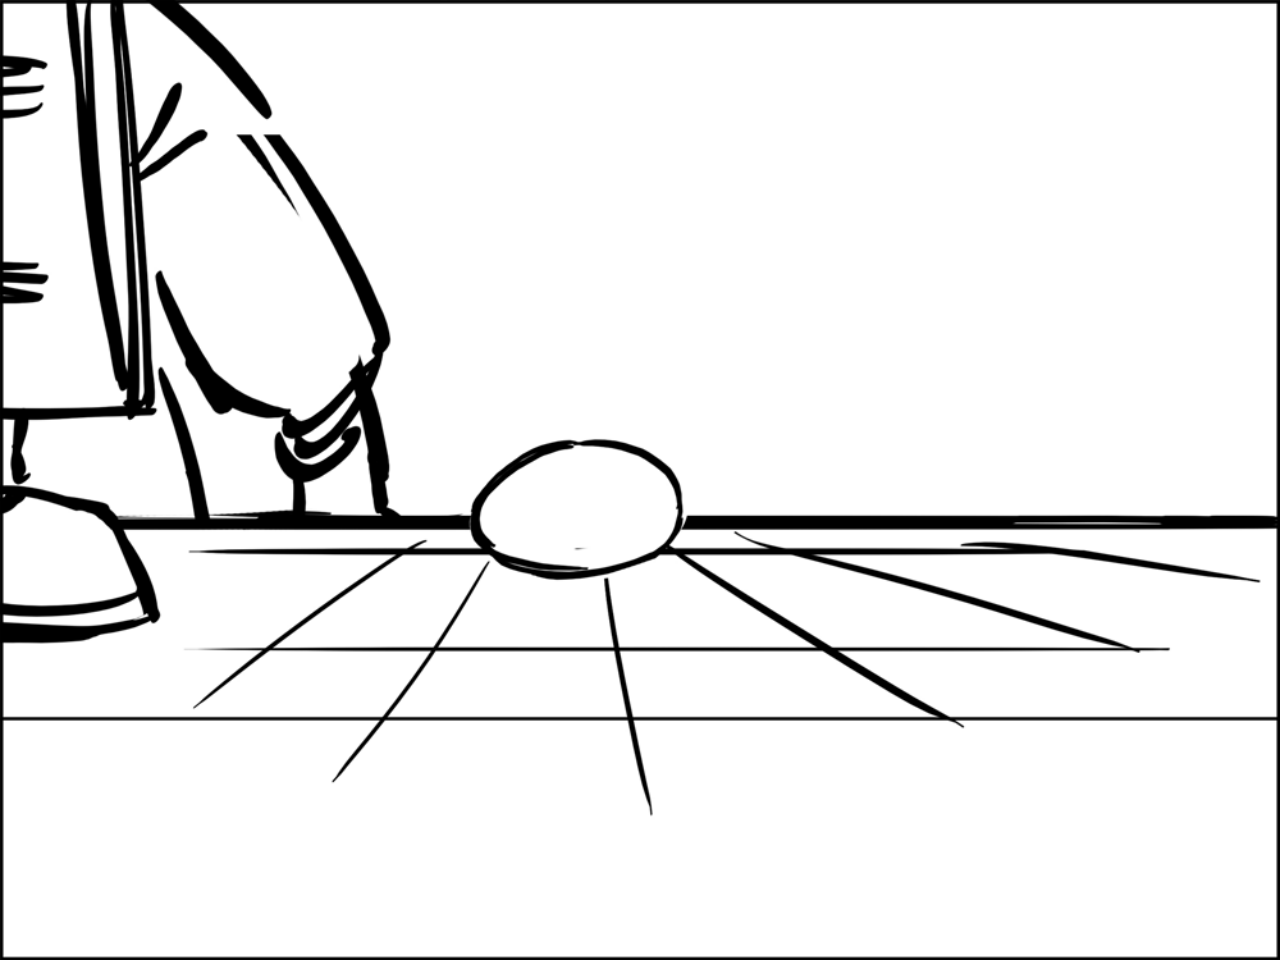

Hiro:

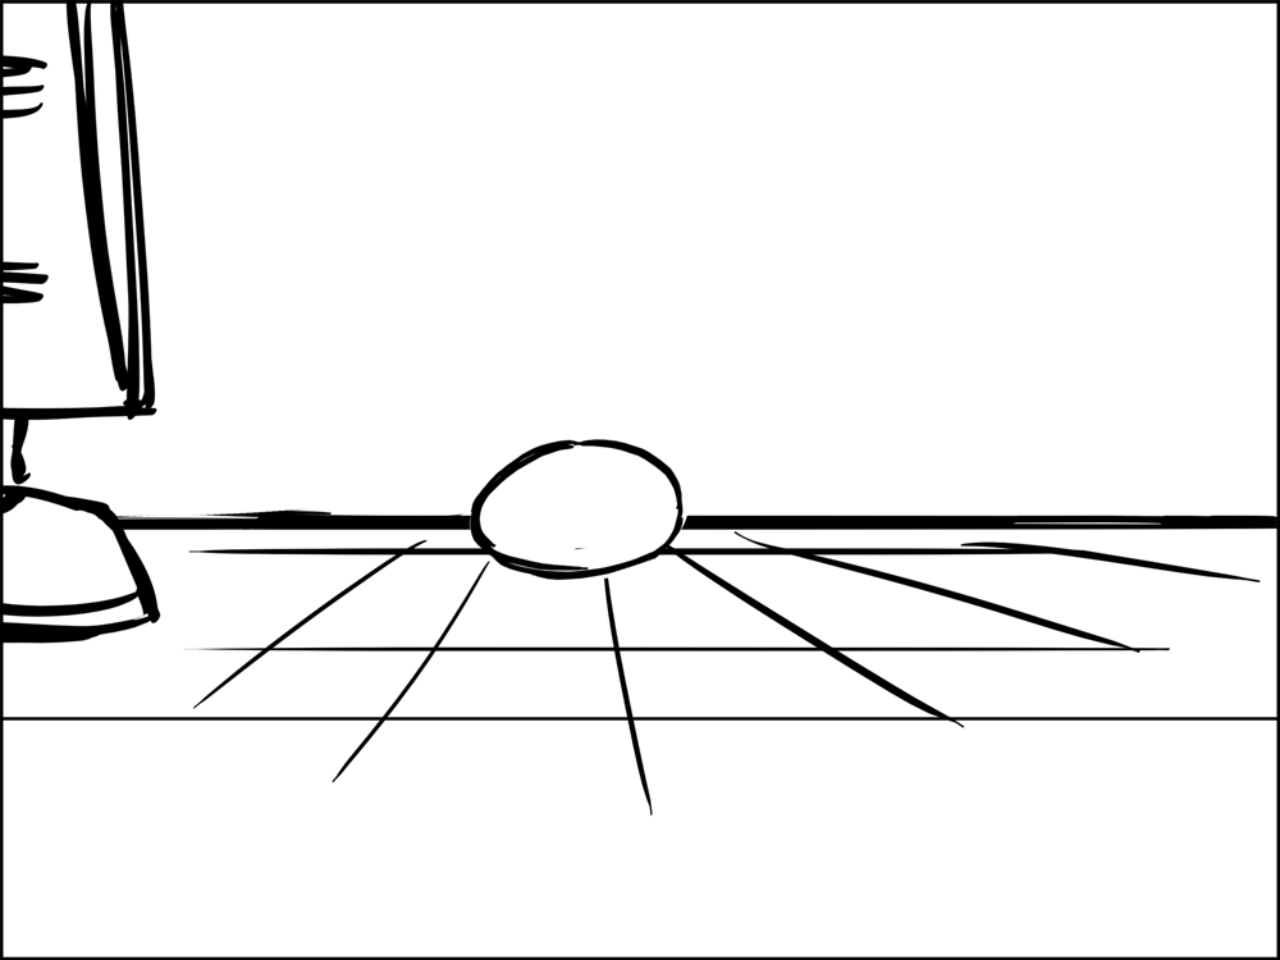

First we need to make an incubator
to keep it warm.

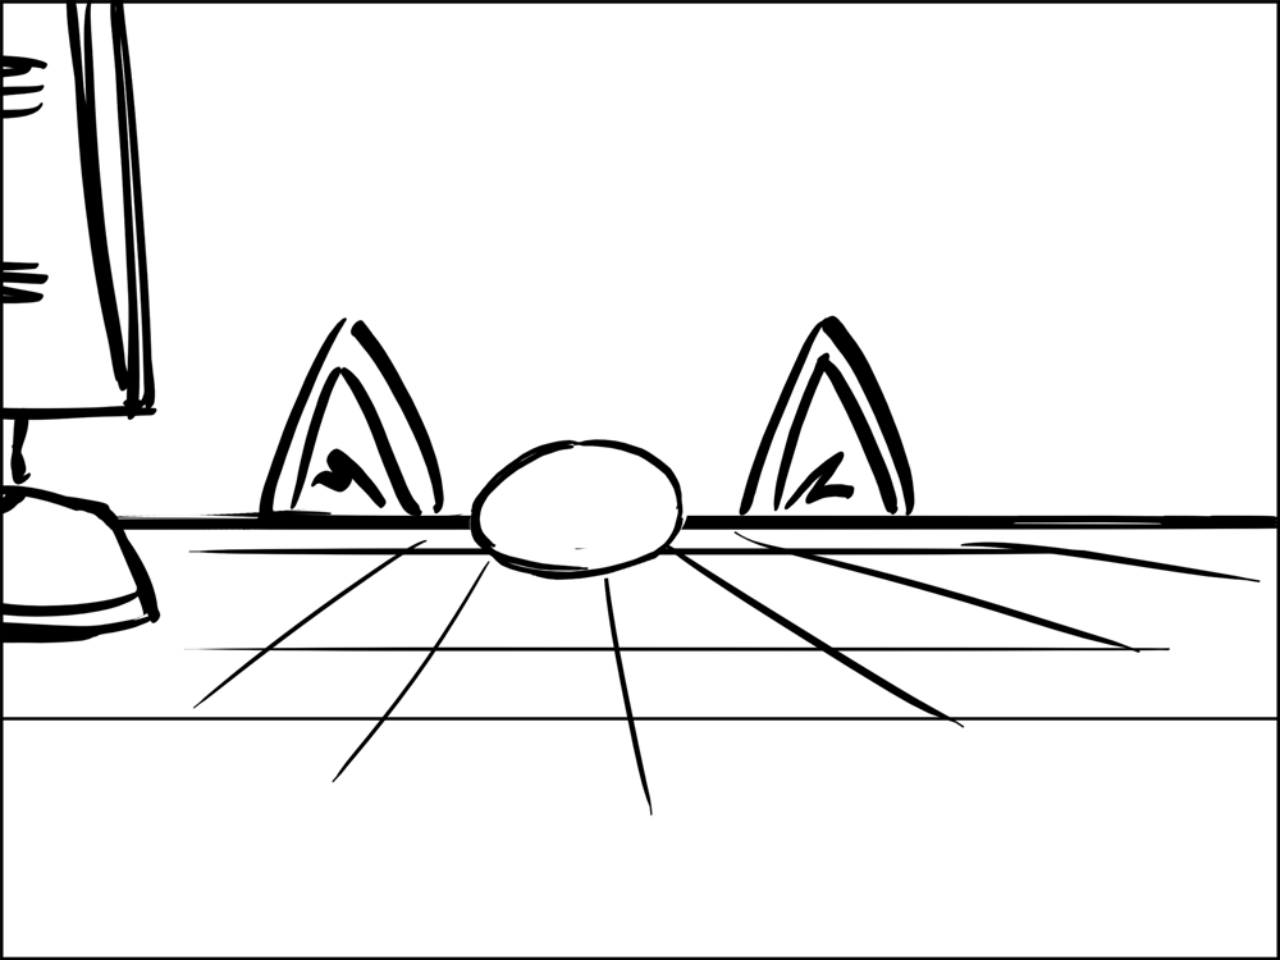

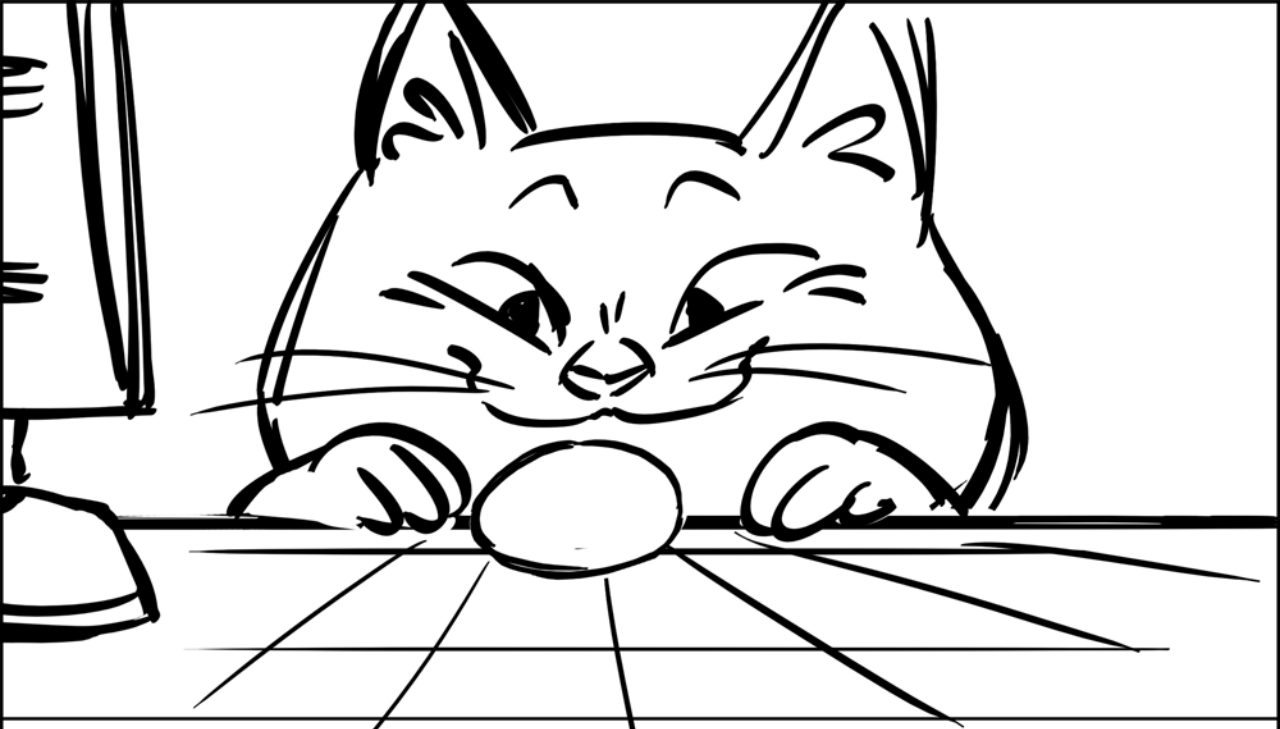

Hiro:

First we need to make an incubator
to keep it warm.

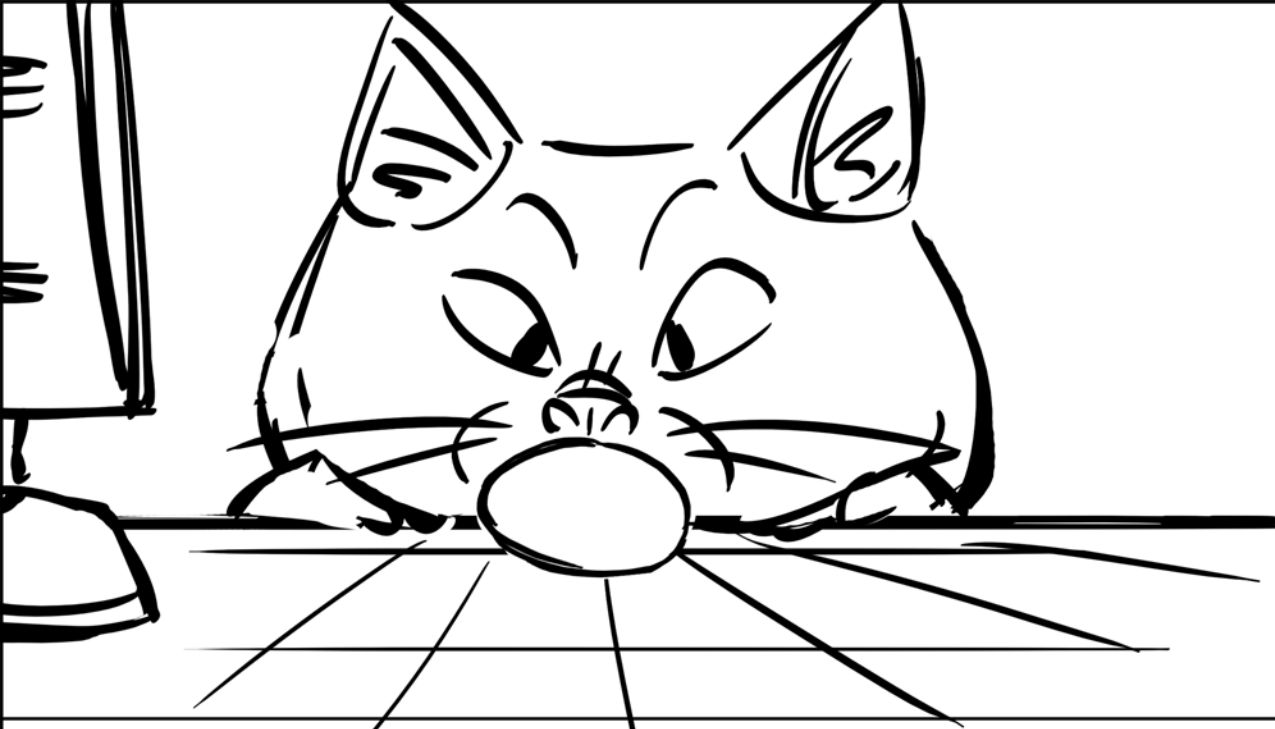

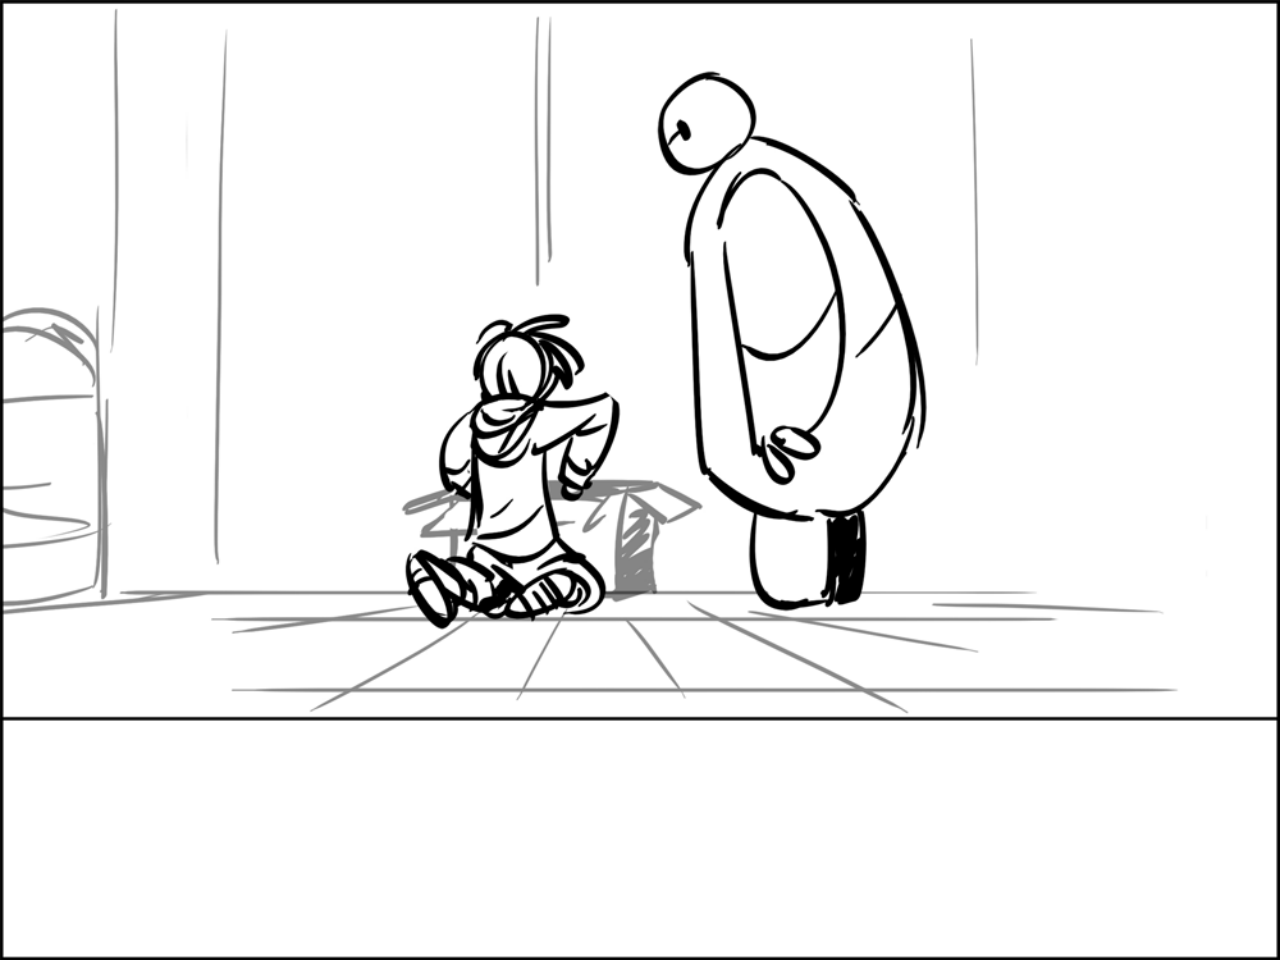

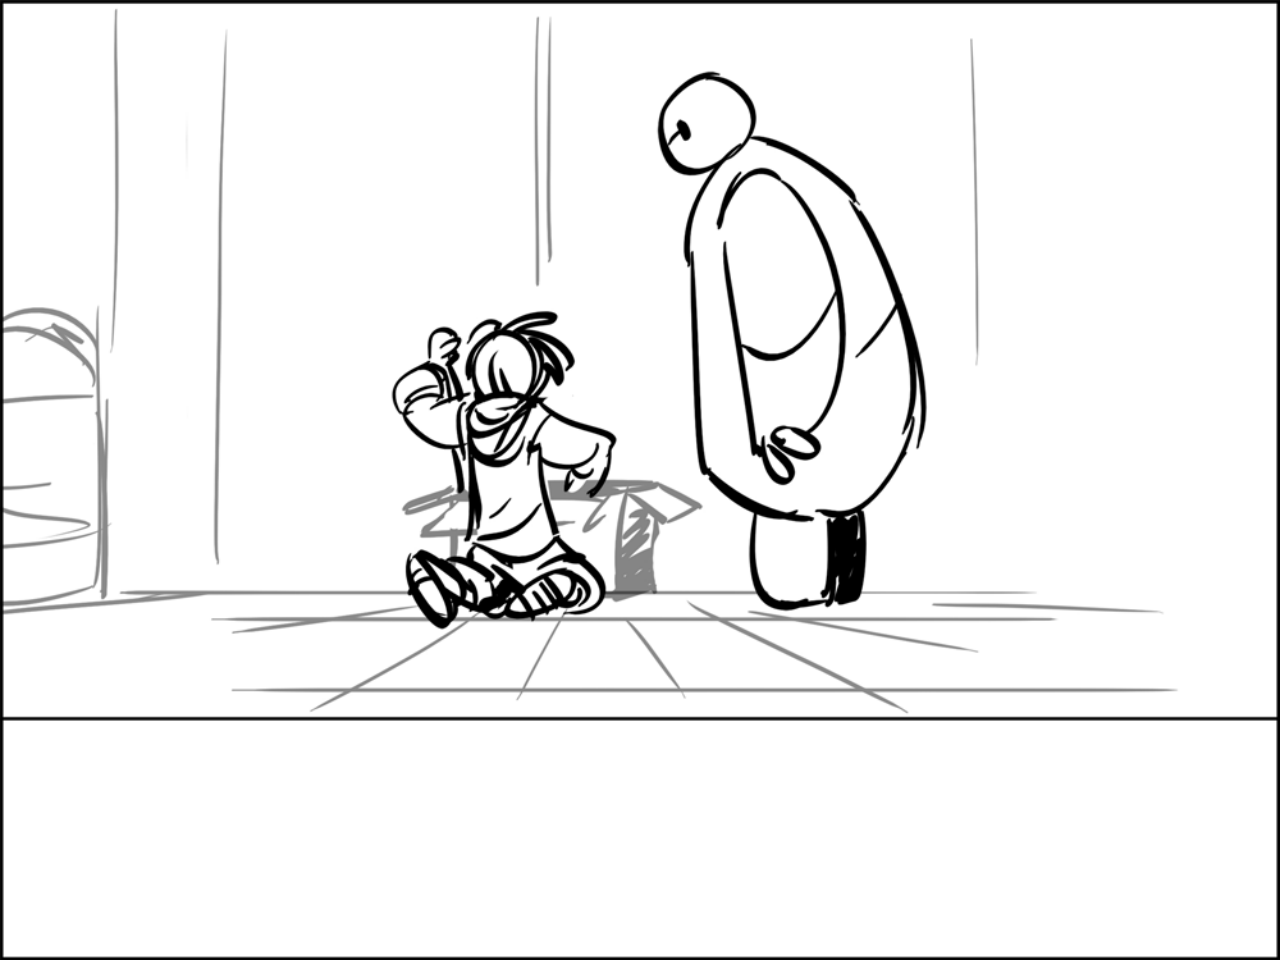

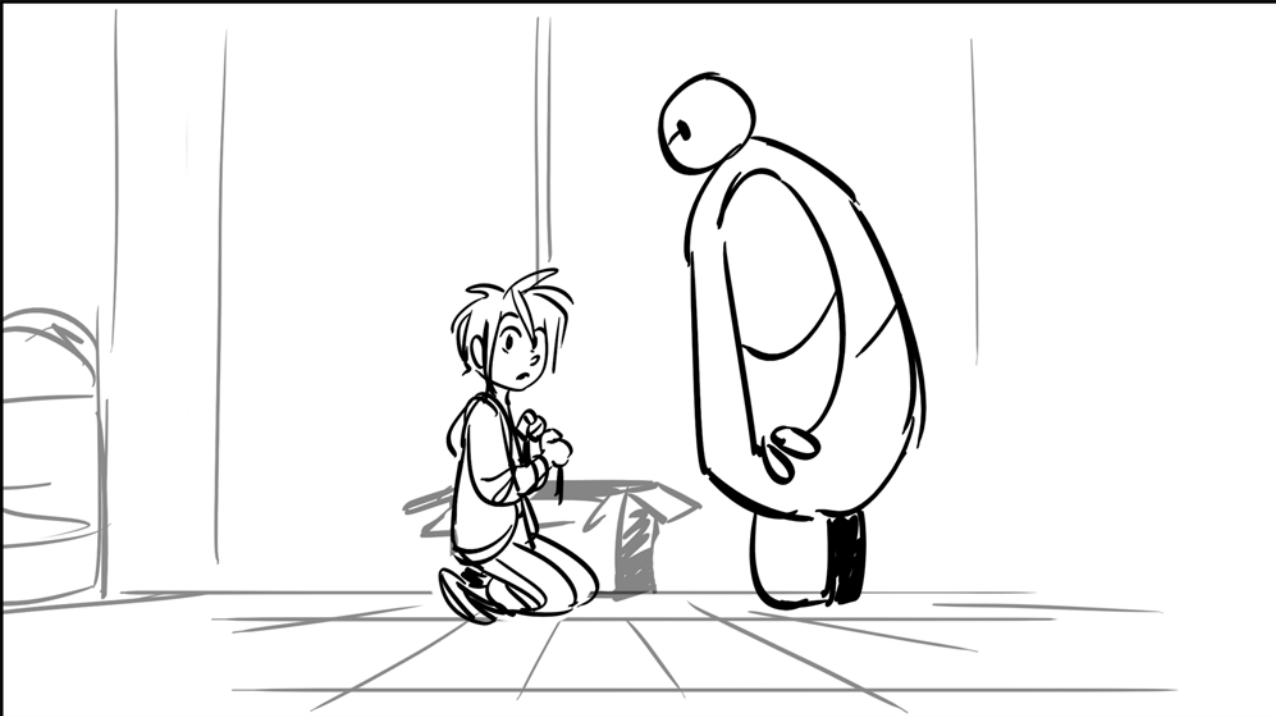

Mochi:
(purring)

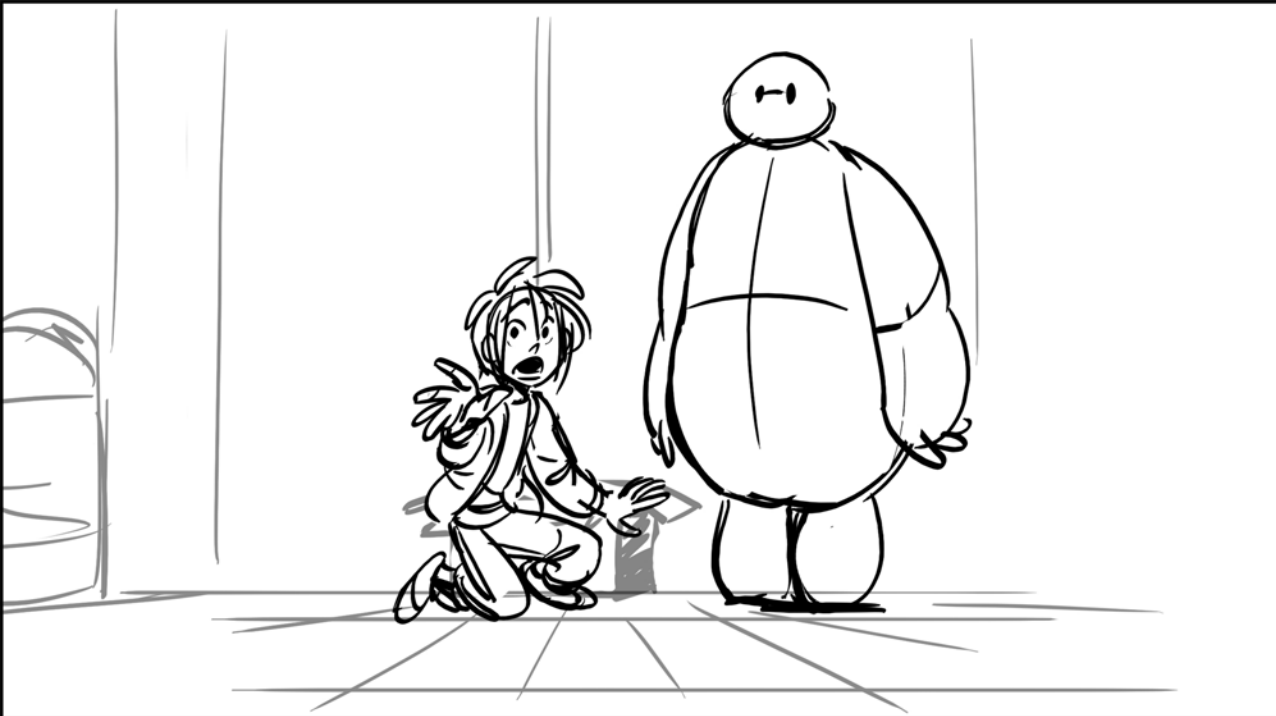

Mochi:
(purring)

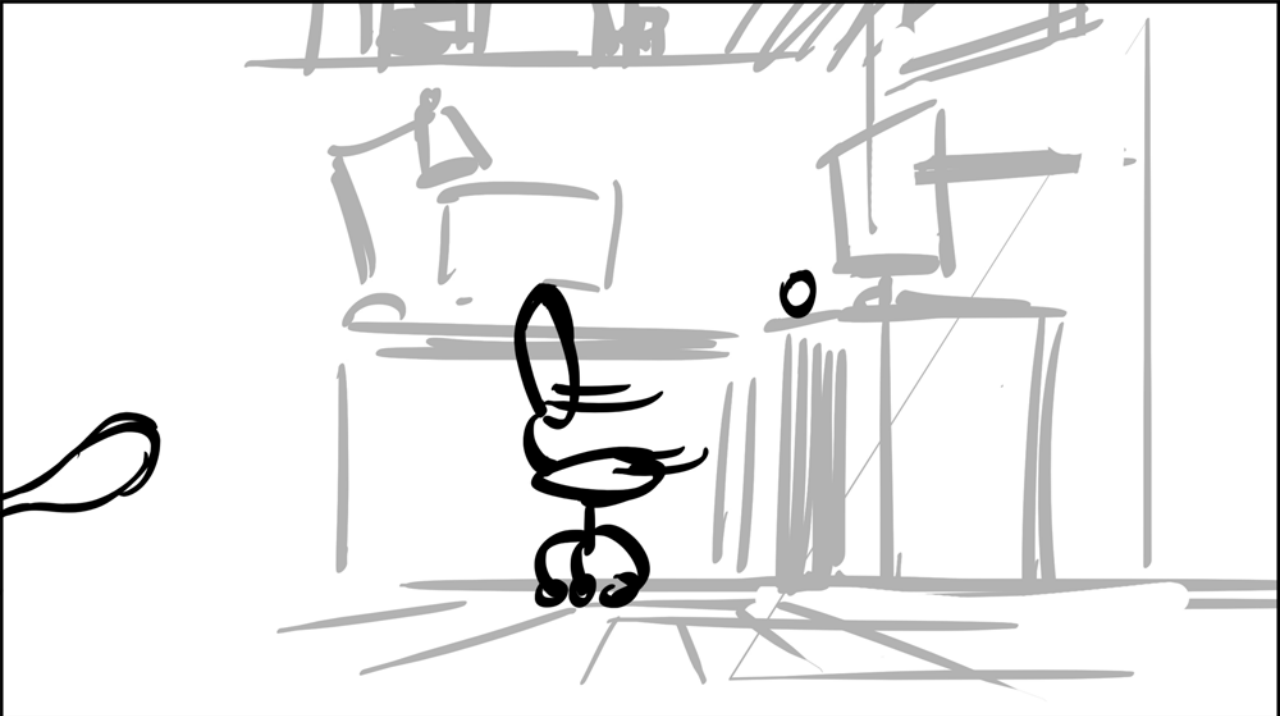

Hiro:
Mochi, NO!

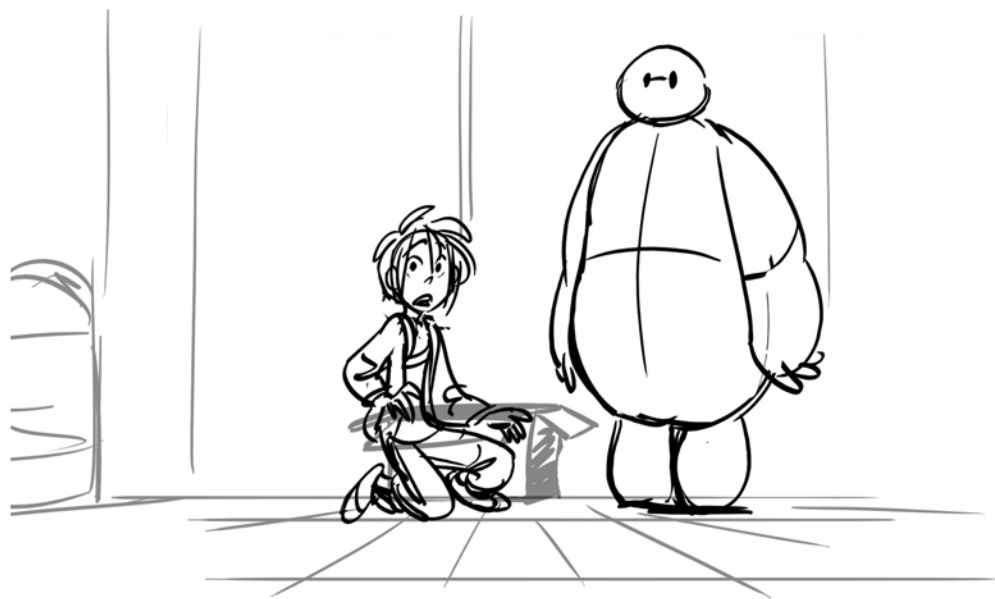

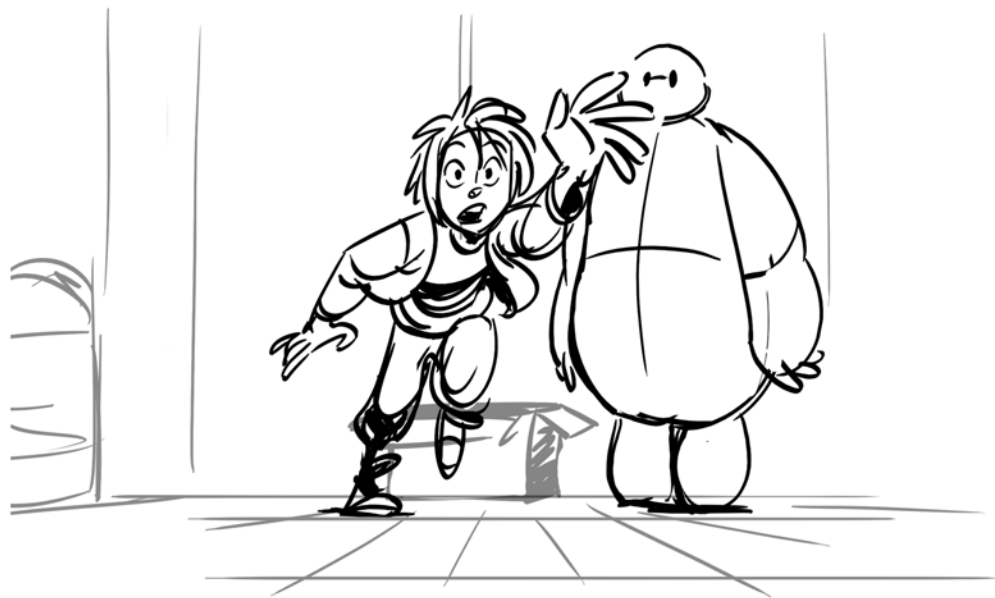

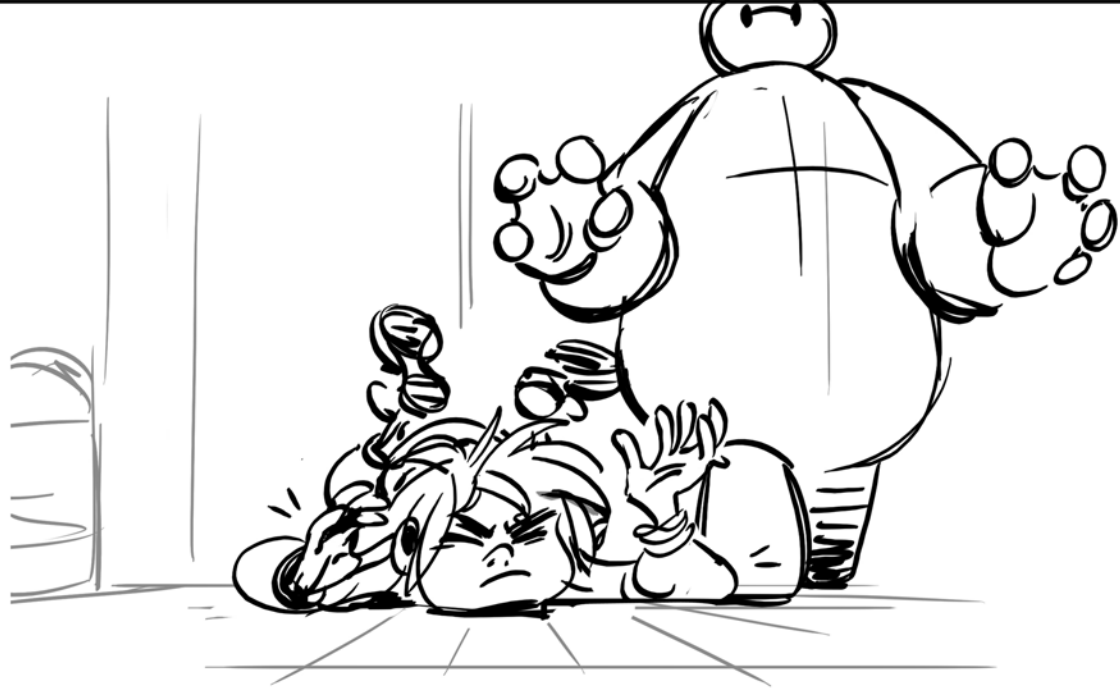

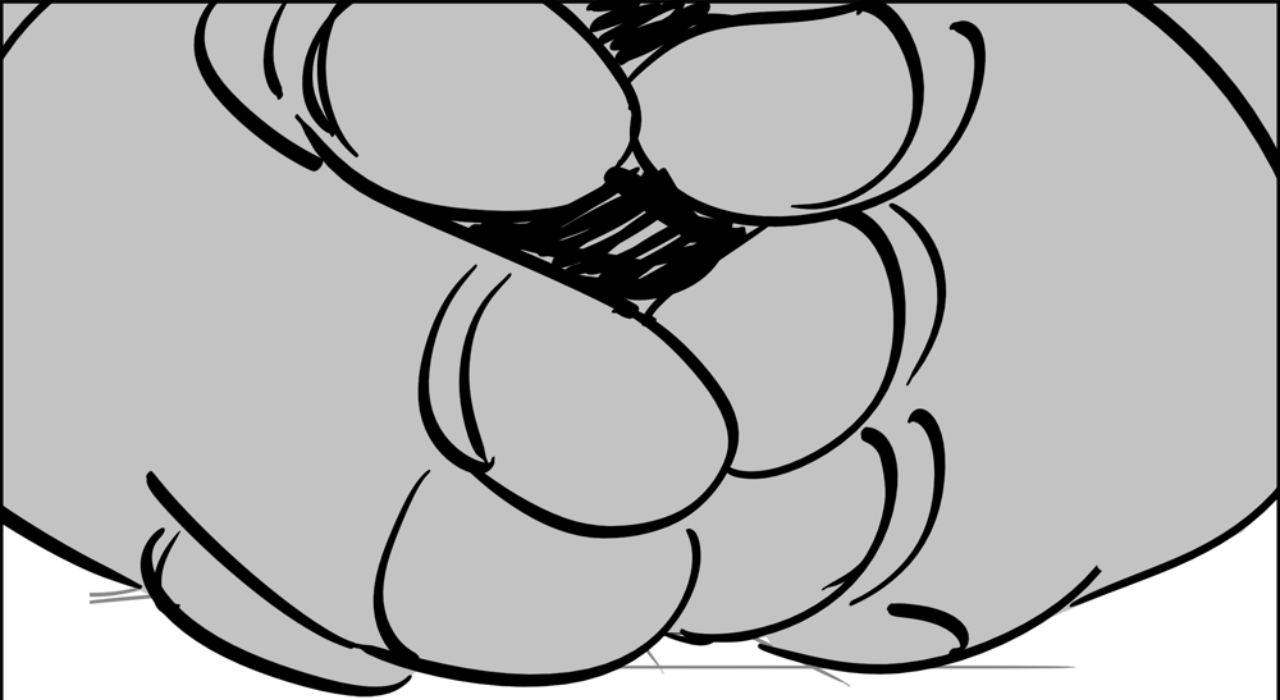

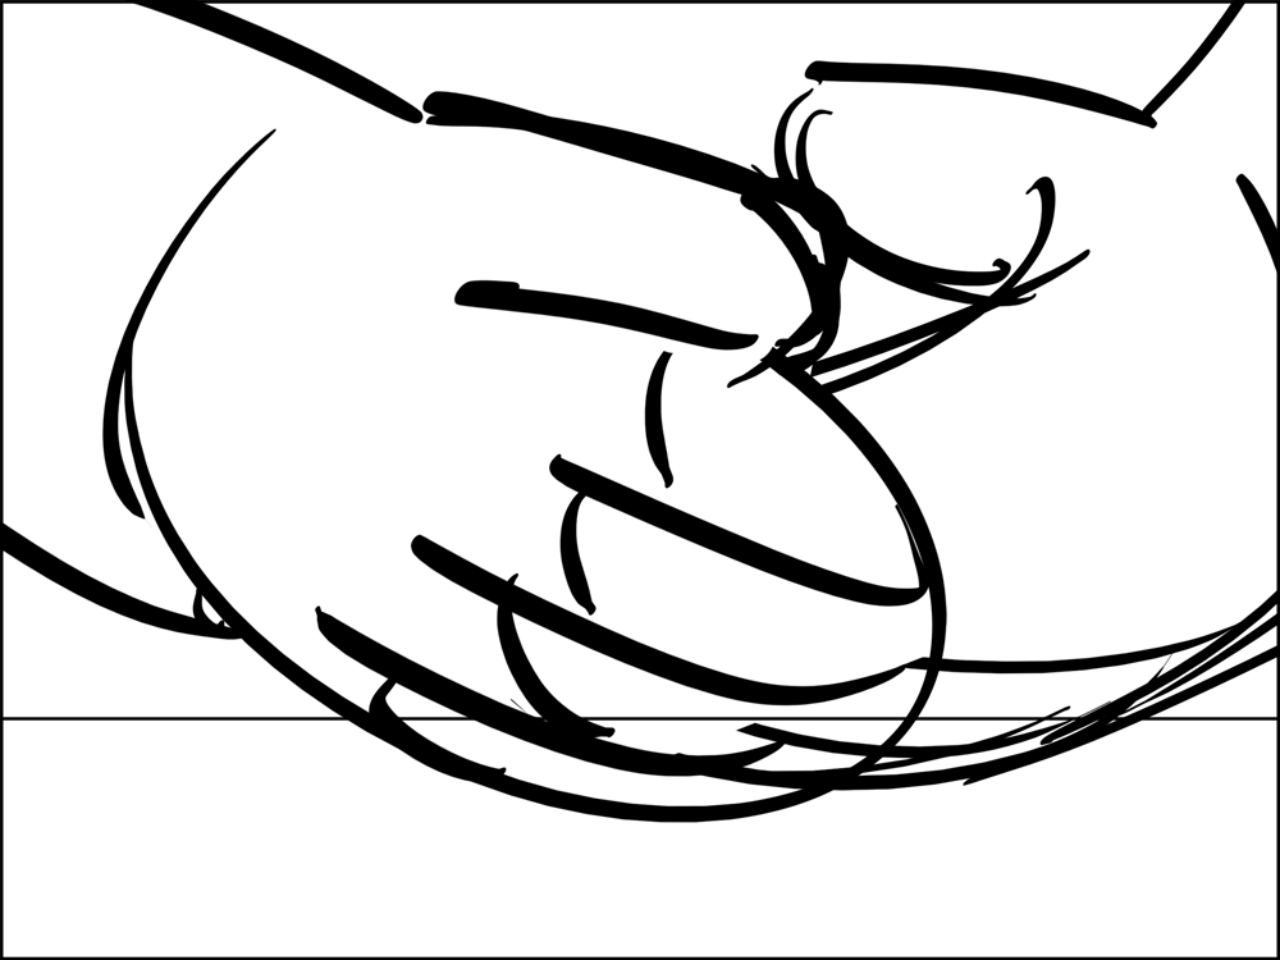

Hiro:
(sigh)

Hiro:
Baymax...

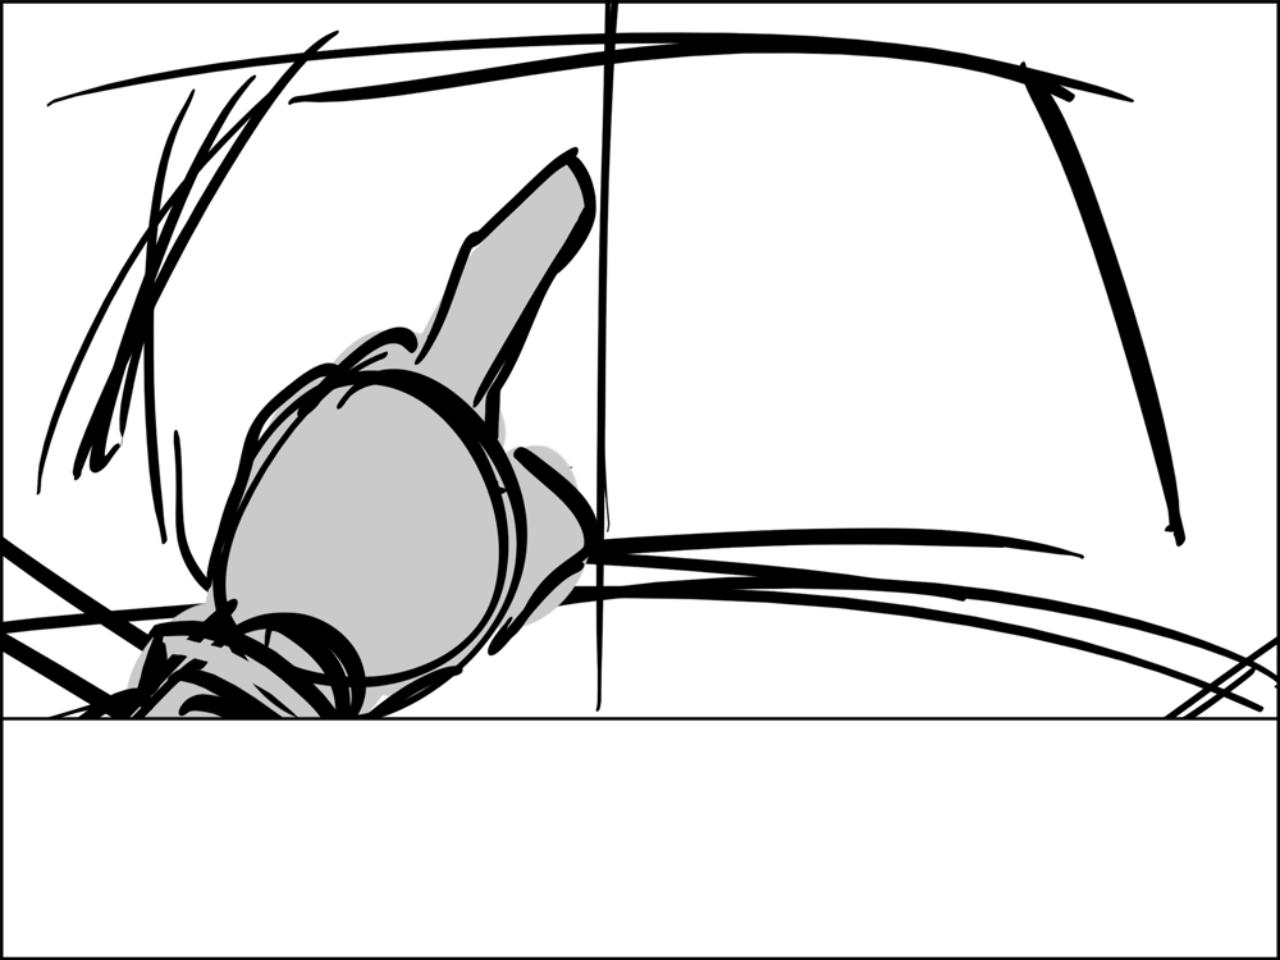

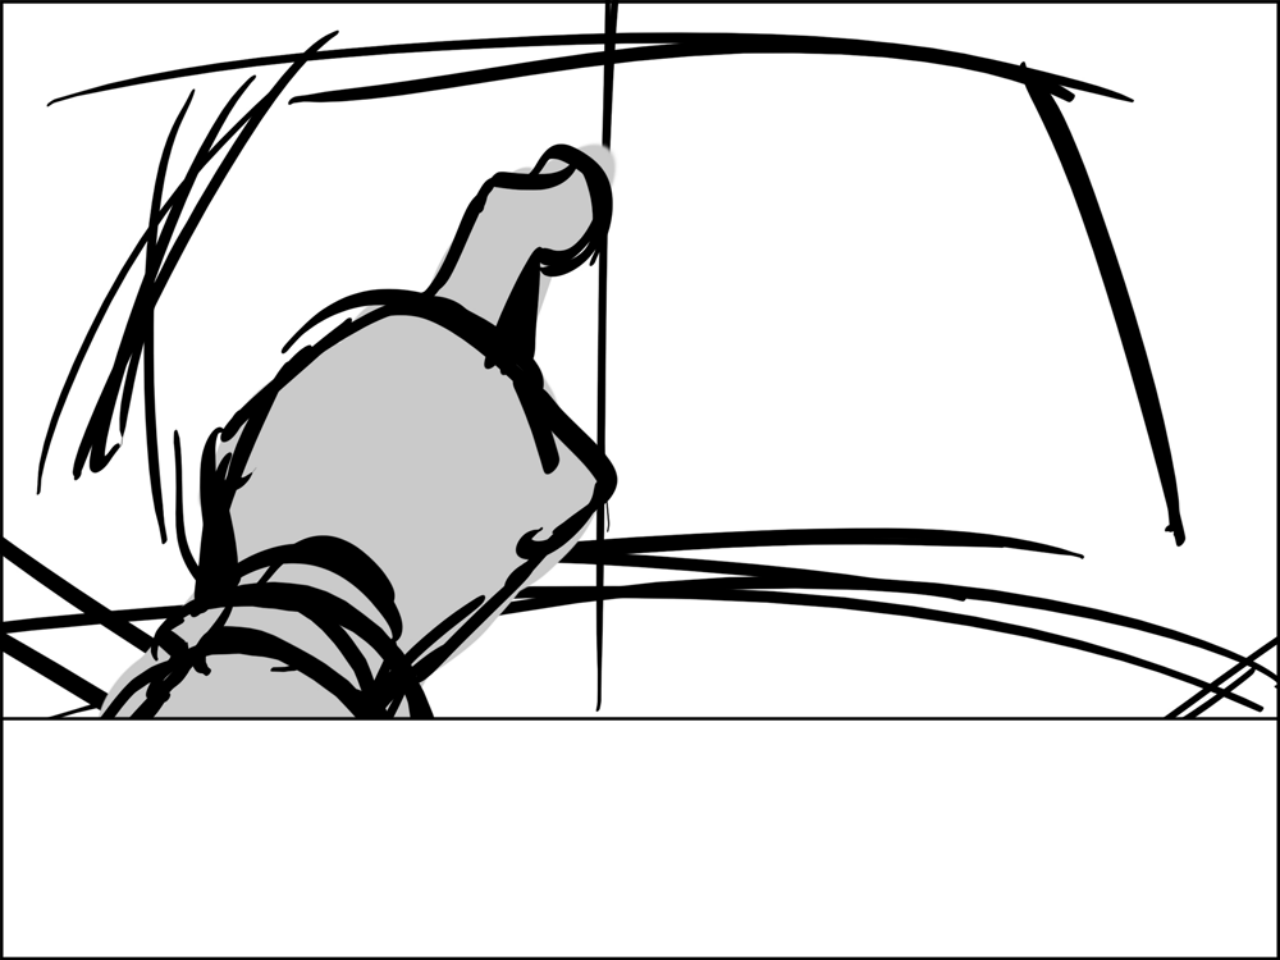

Hiro:

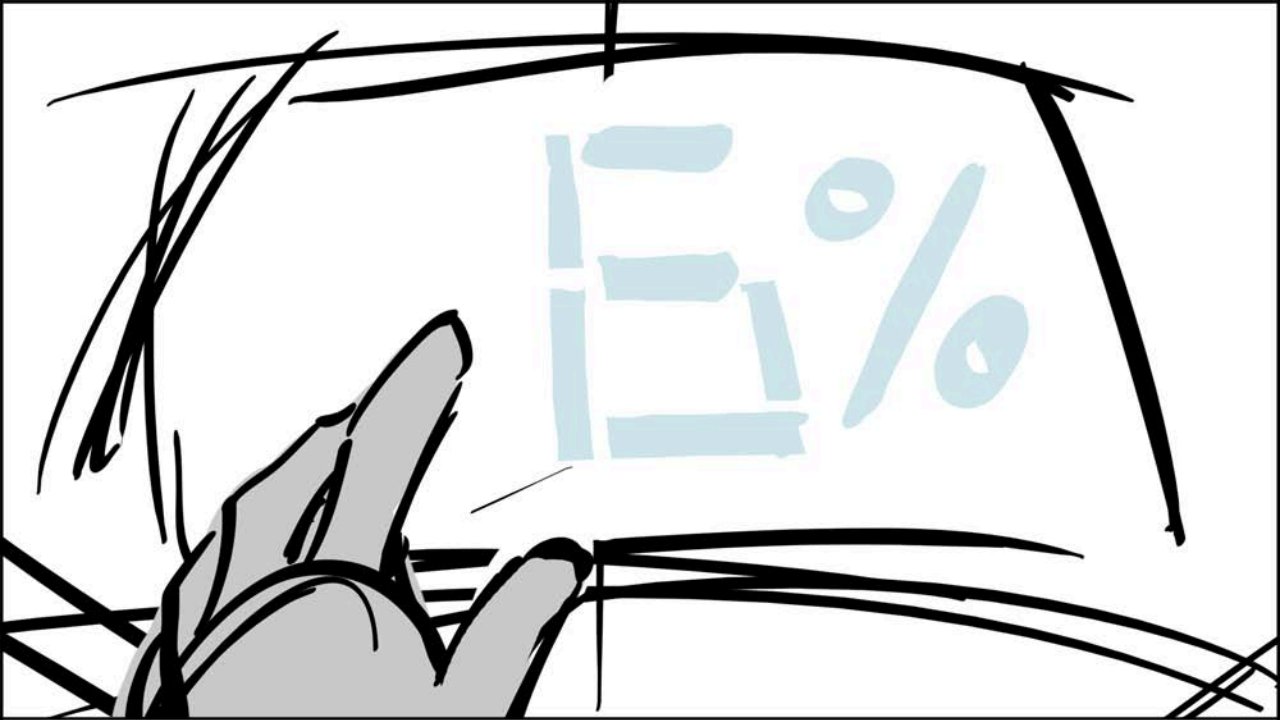

I don't think it's gonna make it, buddy.

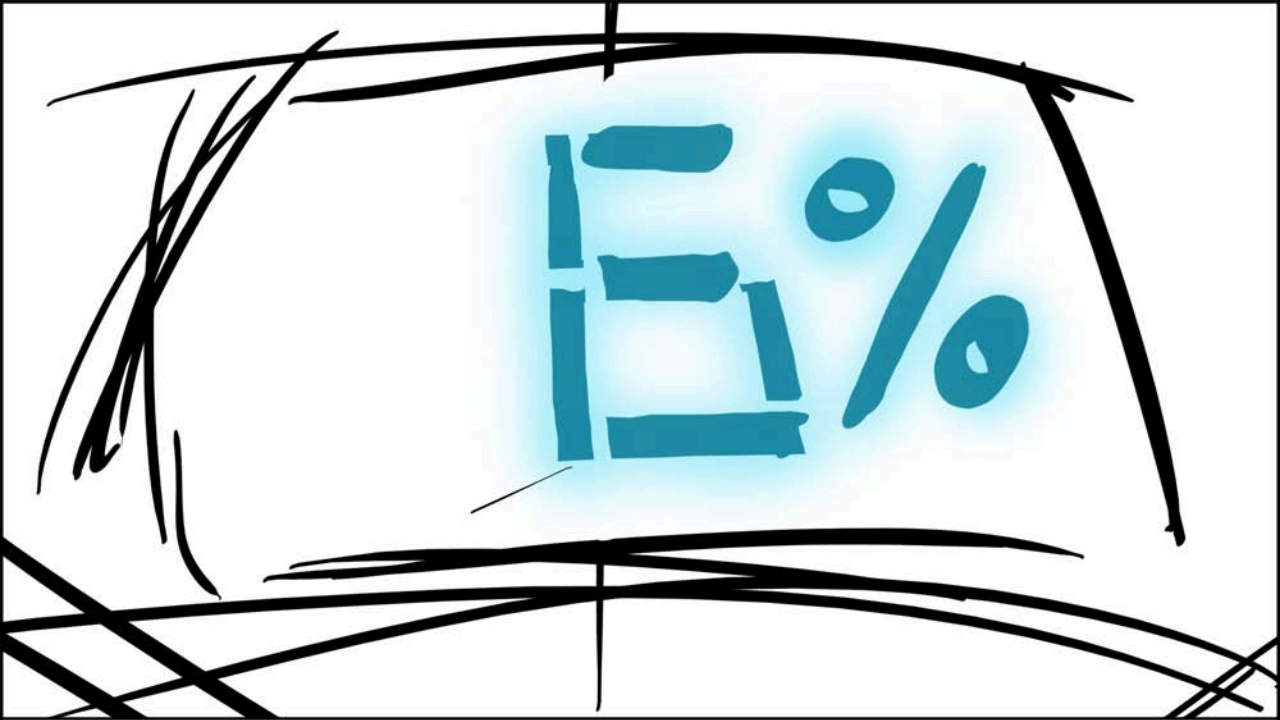

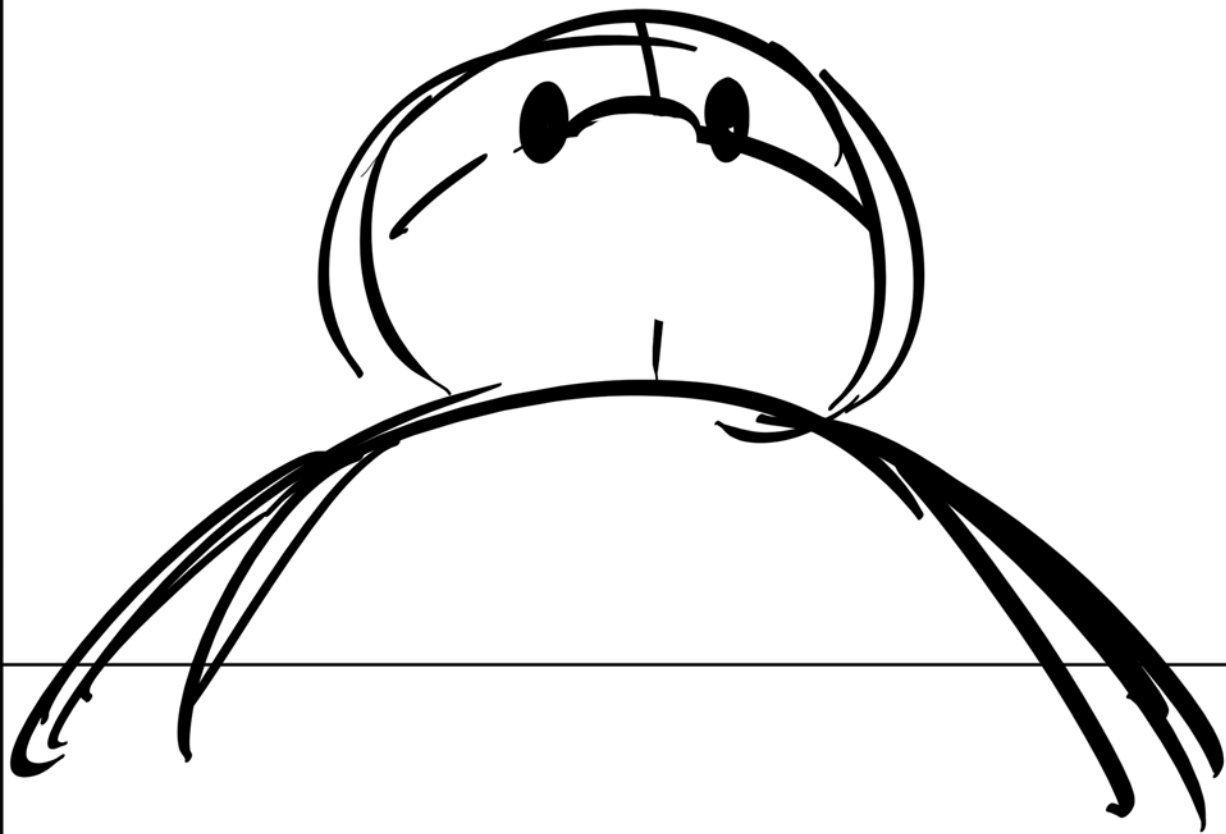

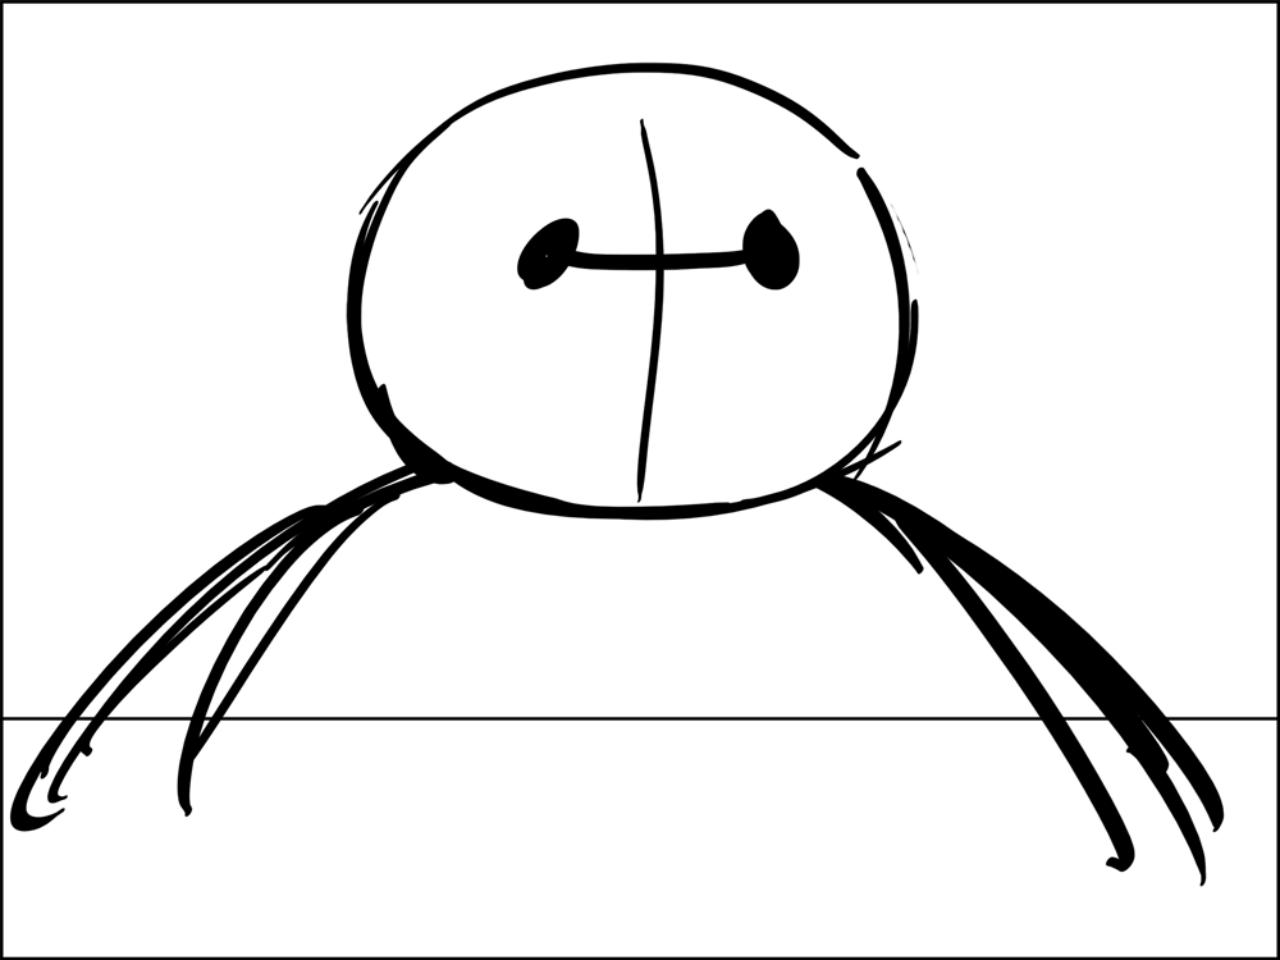

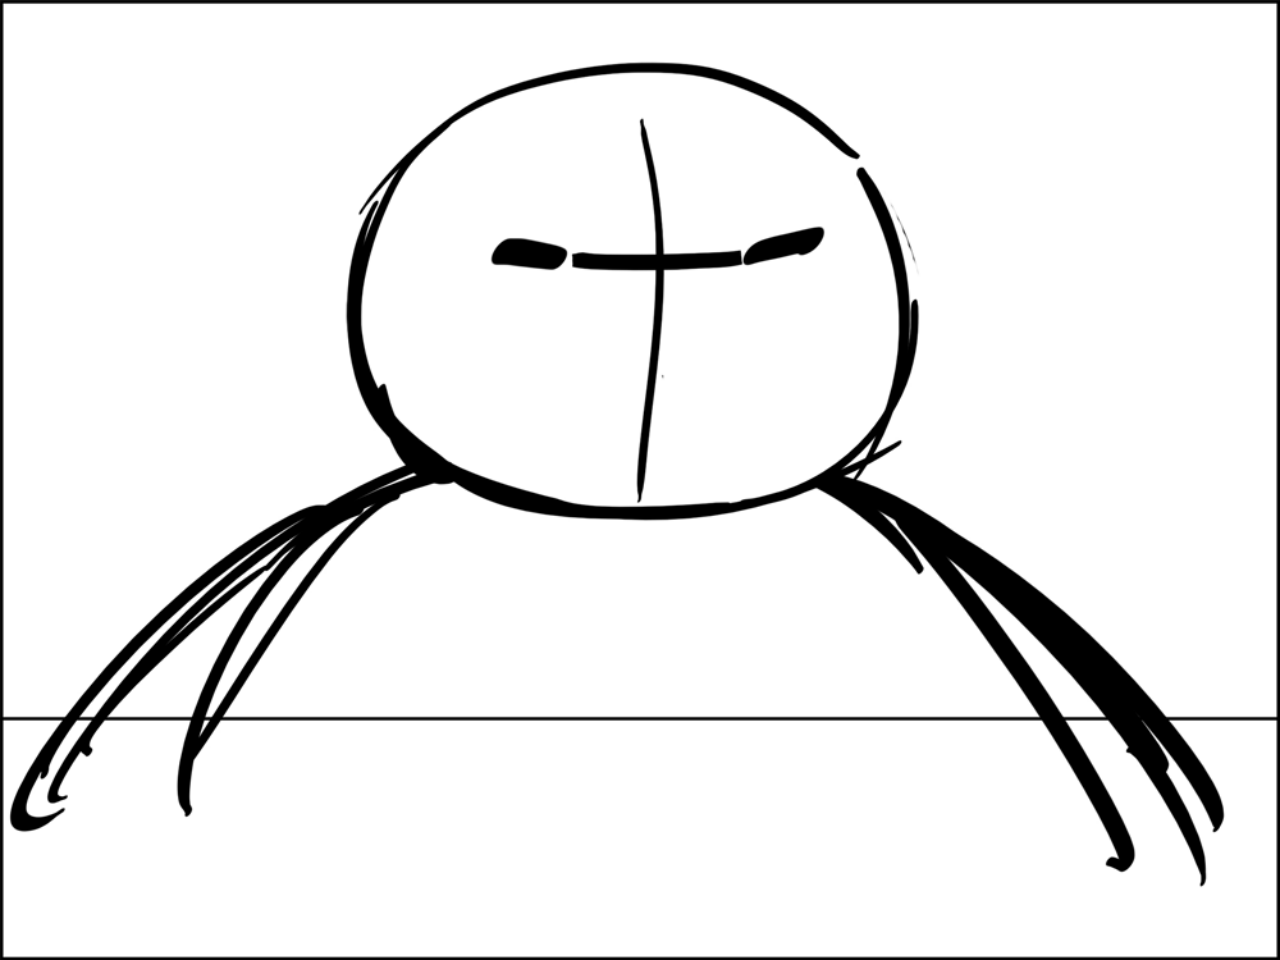

Hiro:
The shell is cracked.

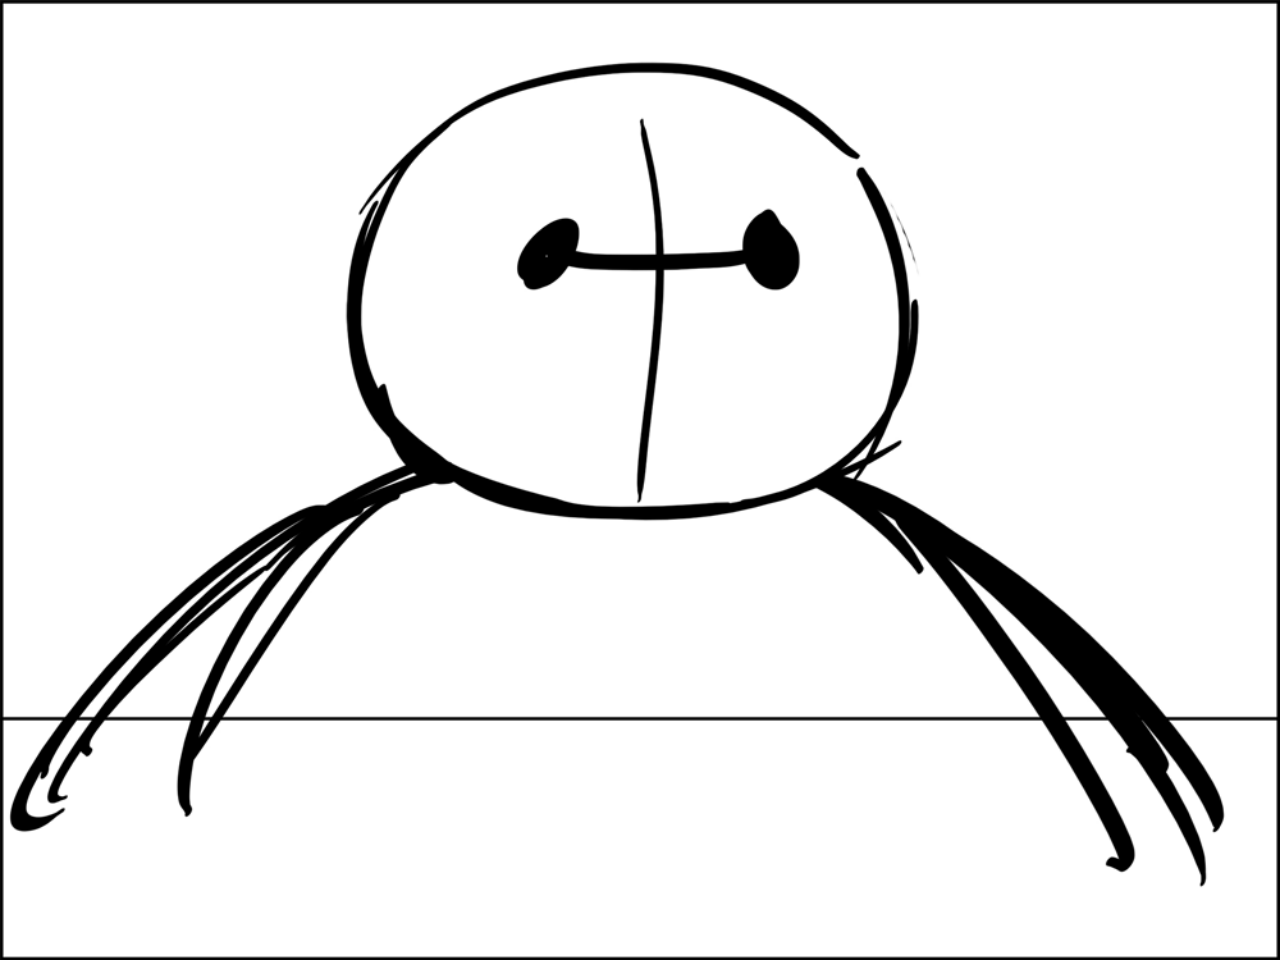

Hiro:
The shell is cracked.

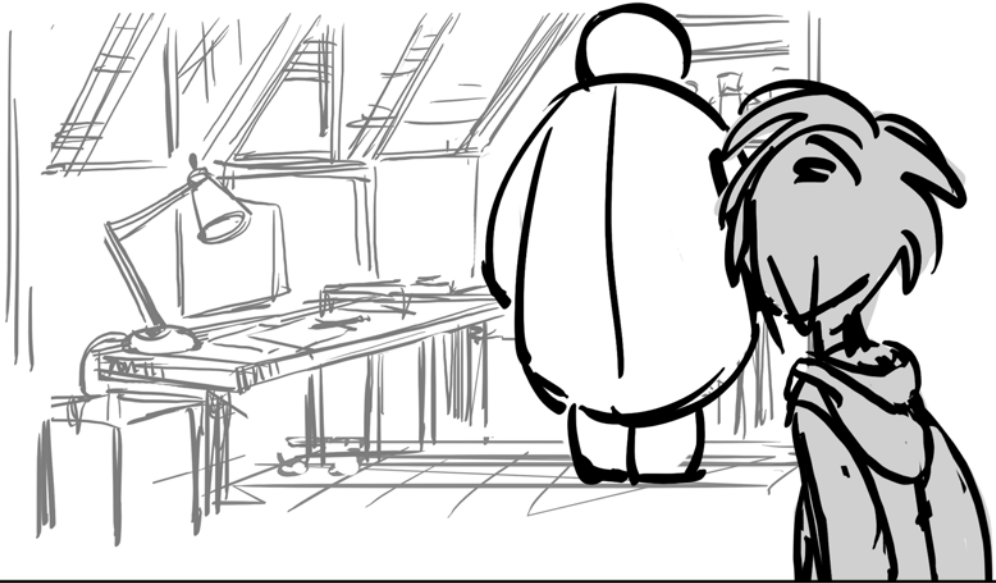

Baymax:

The patient has not yet received
its prescribed treatment.

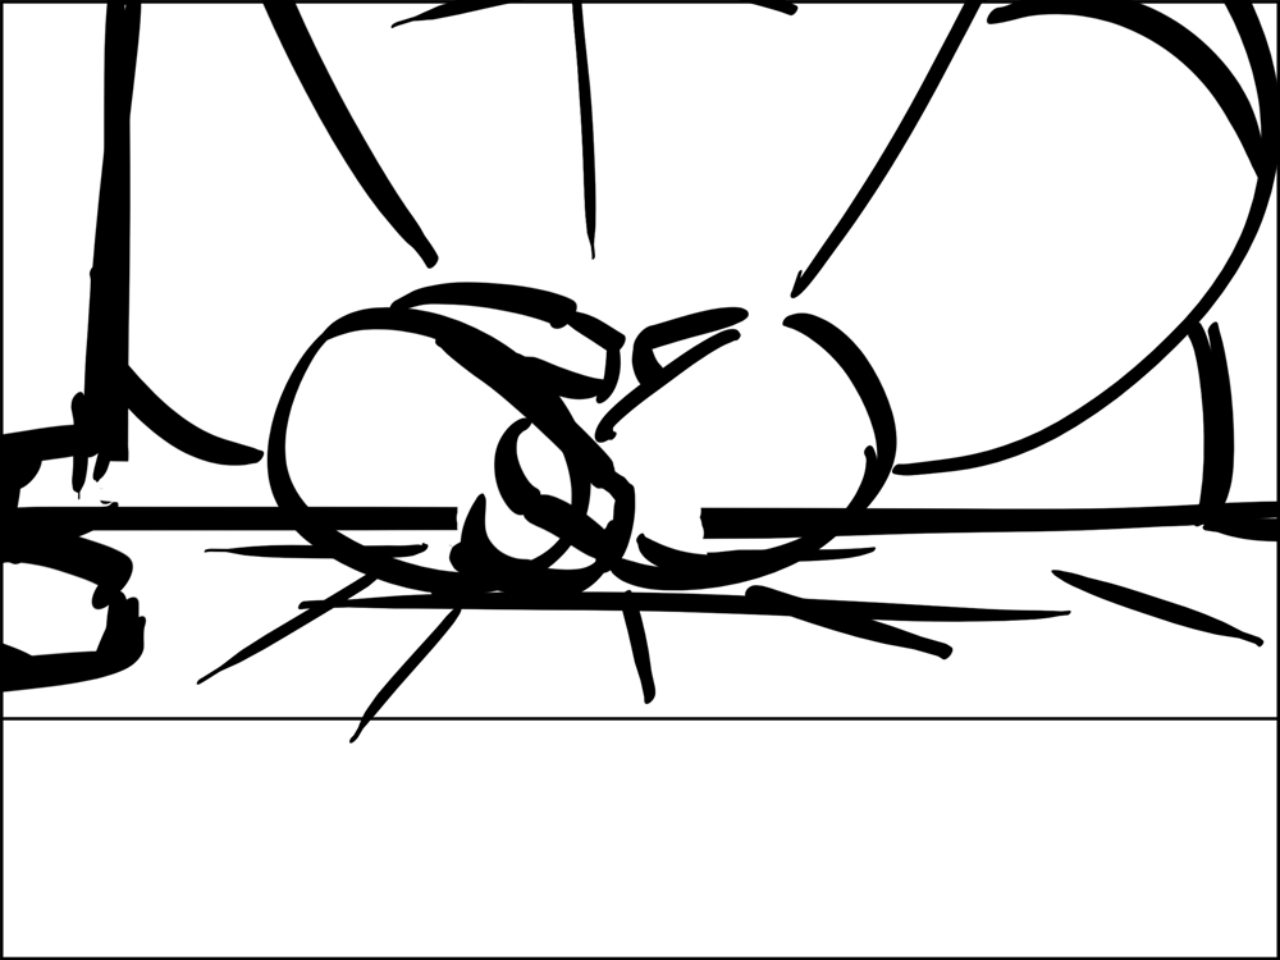

Baymax:

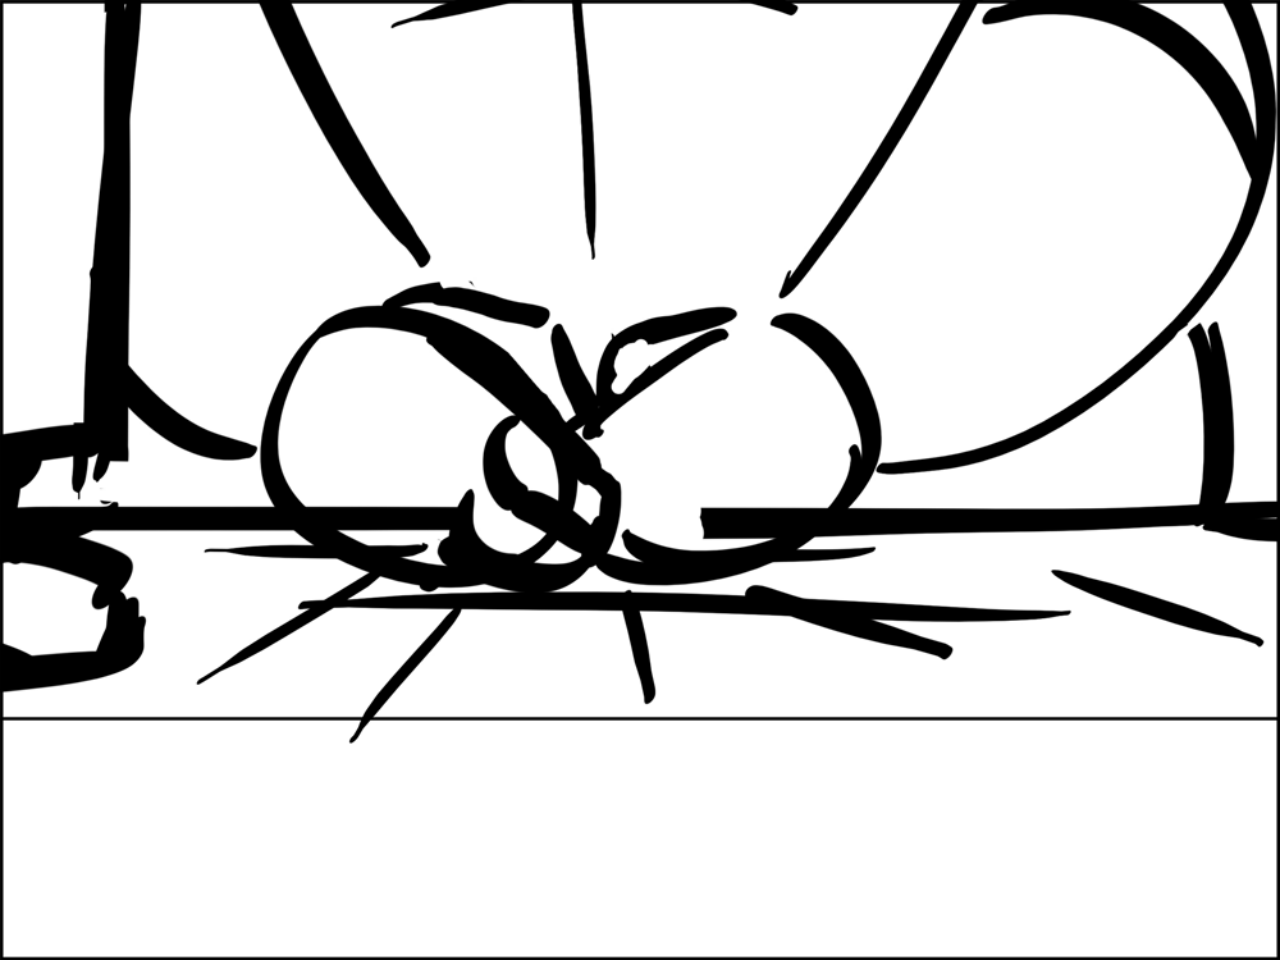

The patient has not yet received
its prescribed treatment.

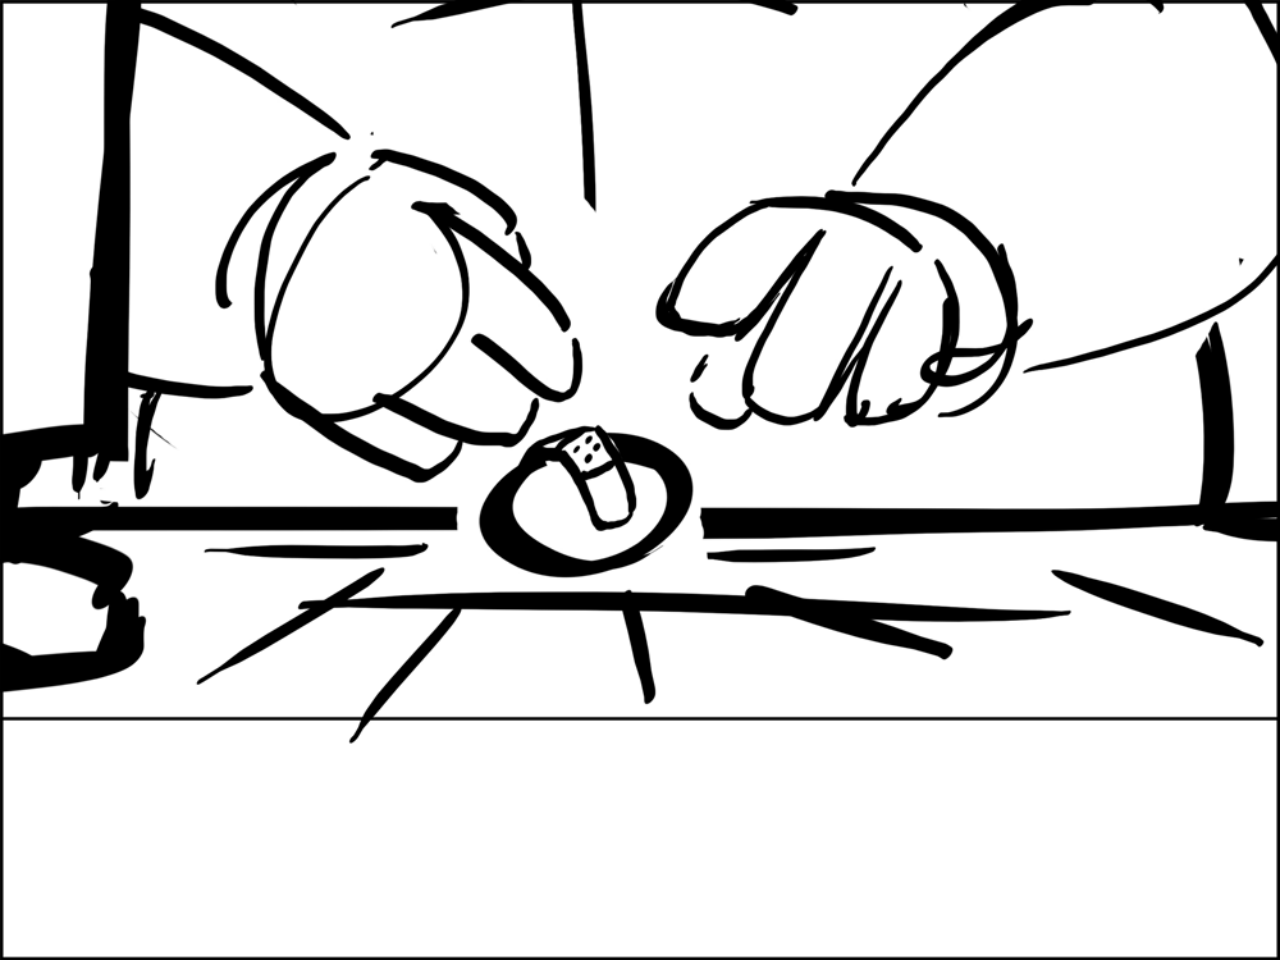

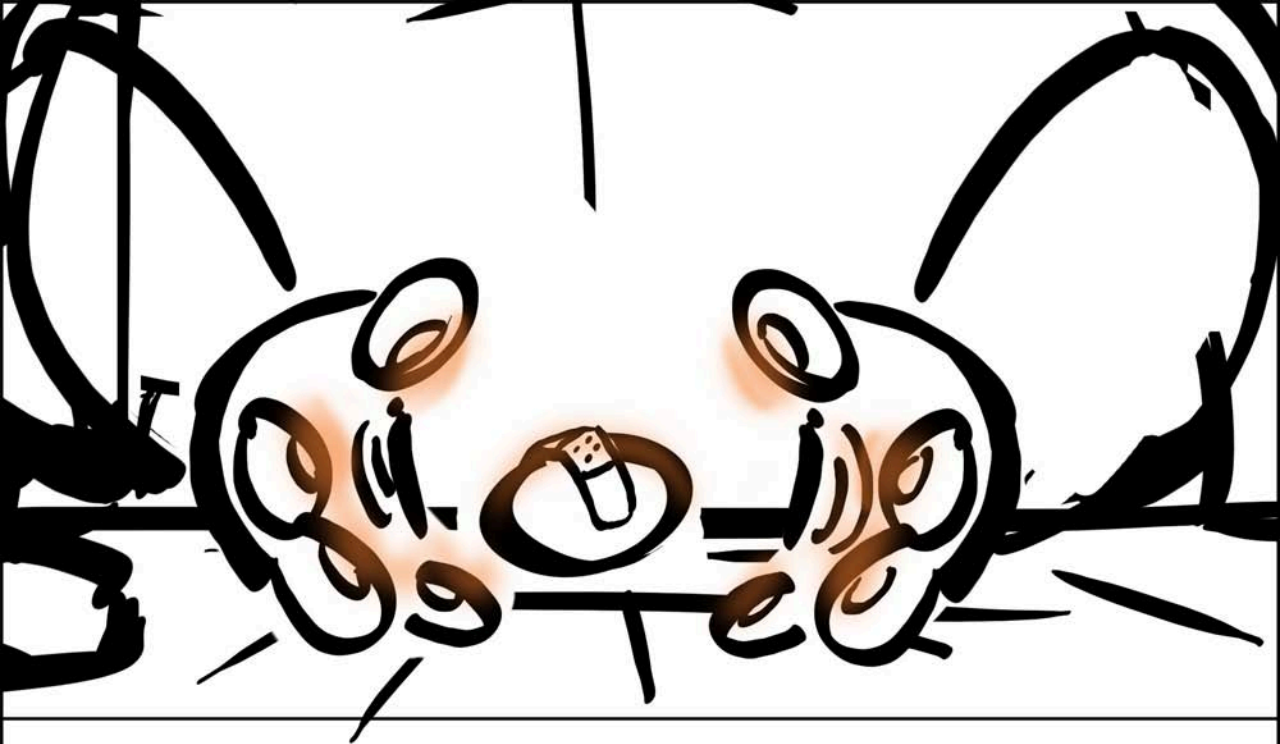

Baymax:

The patient has not yet received
its prescribed treatment.

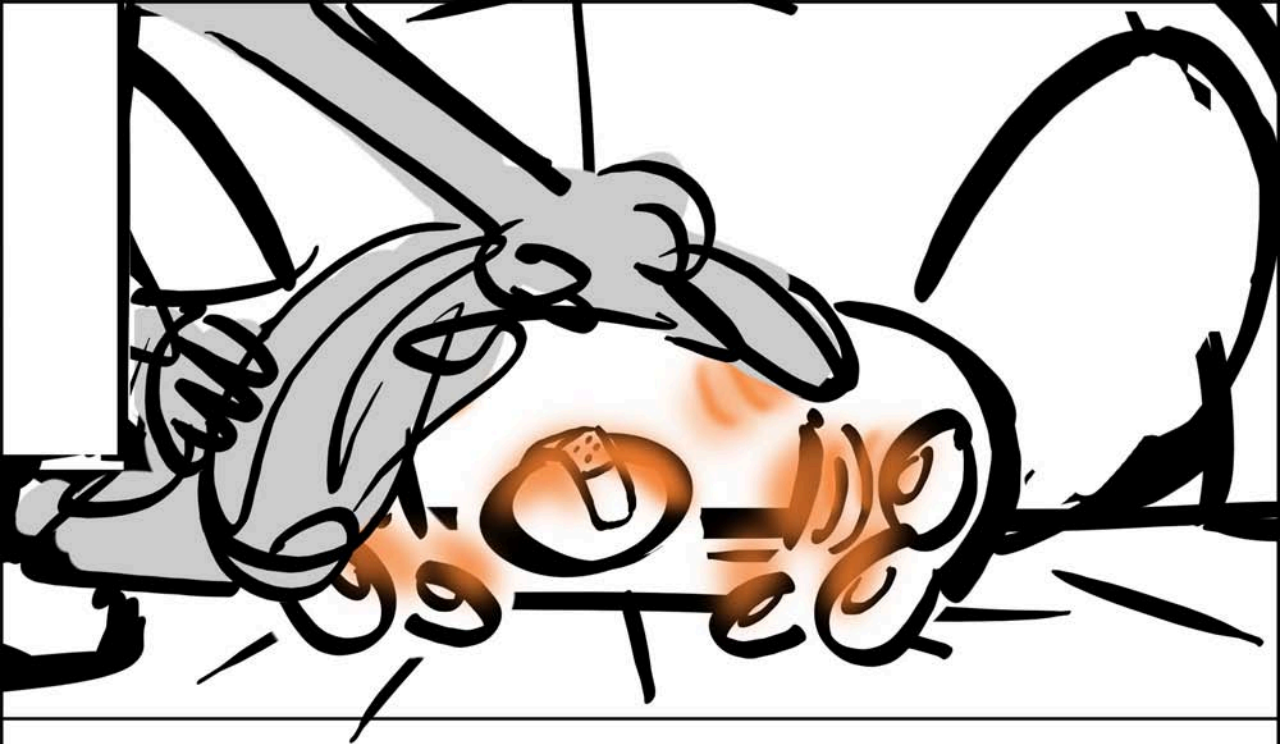

Hiro:
Come on, little guy...

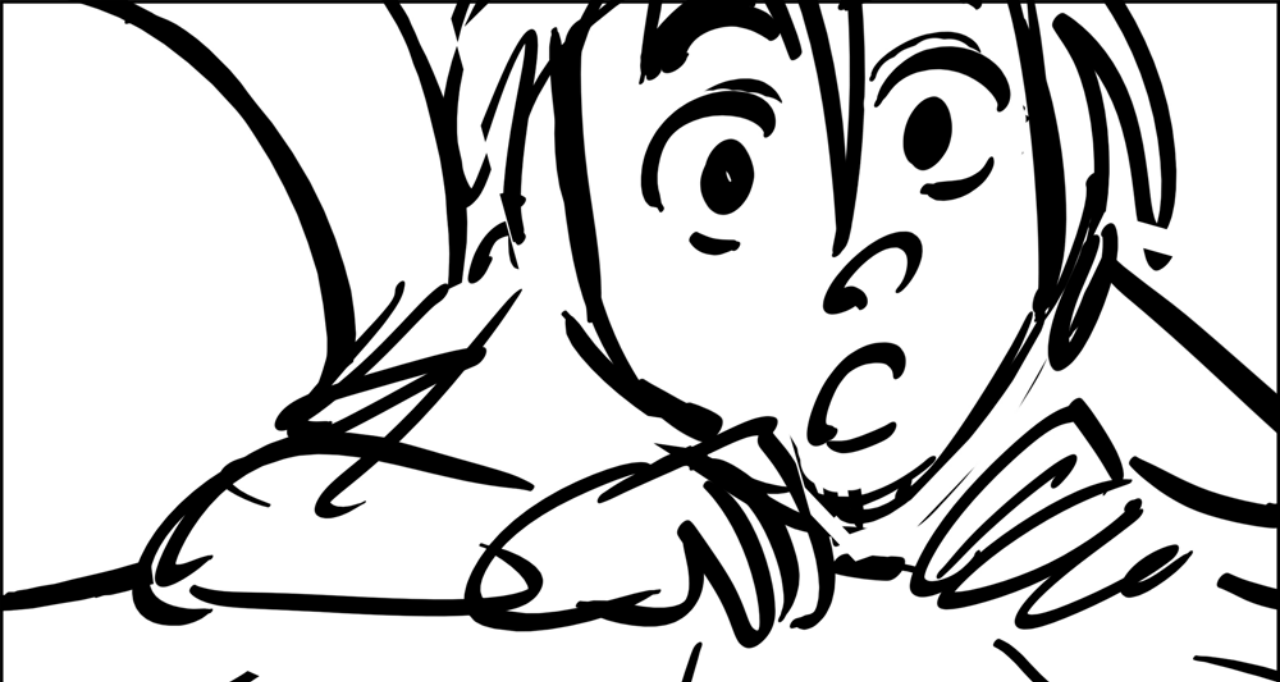

Baymax:
Hiro.

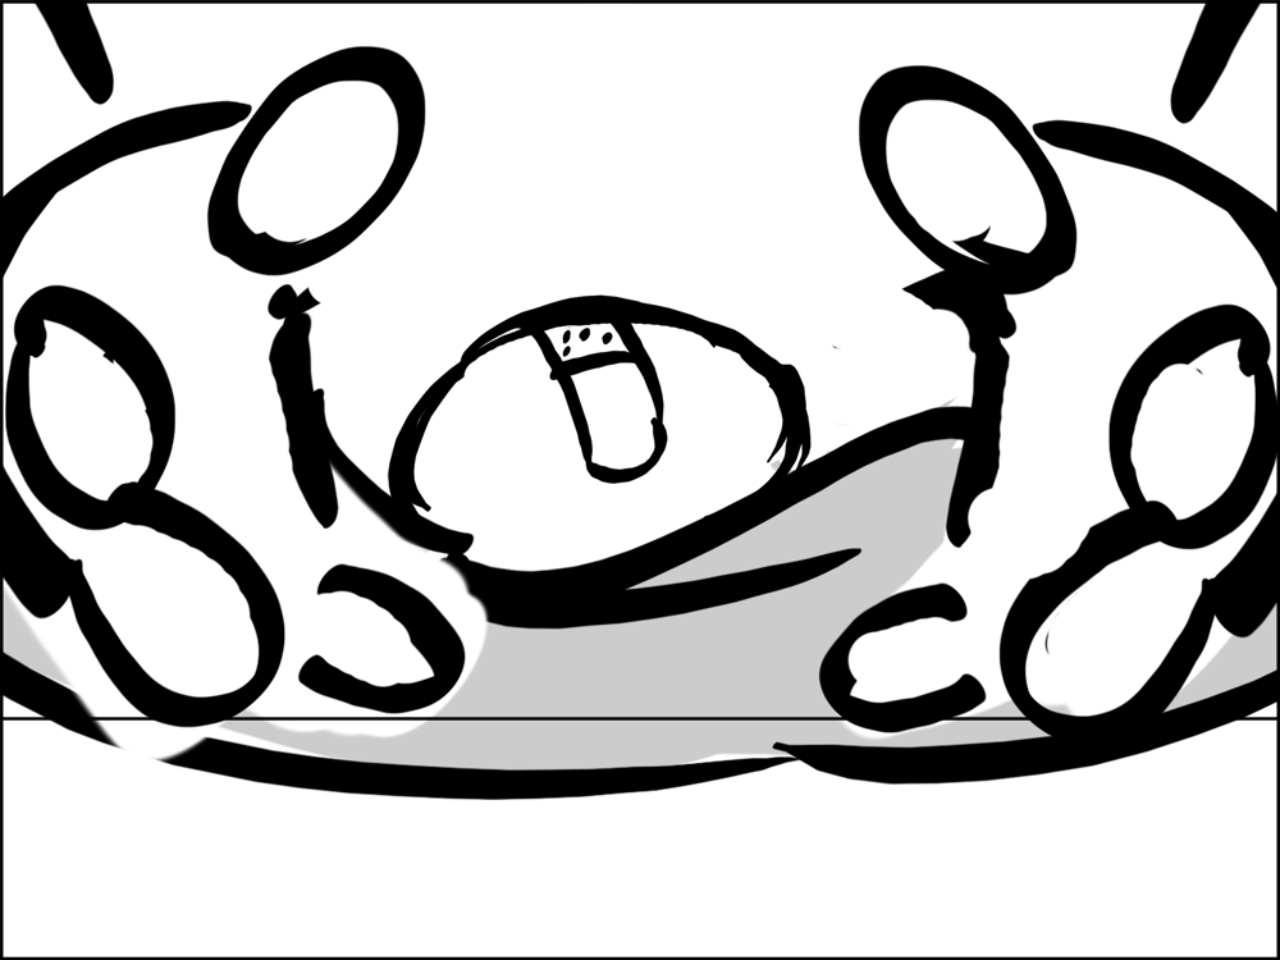

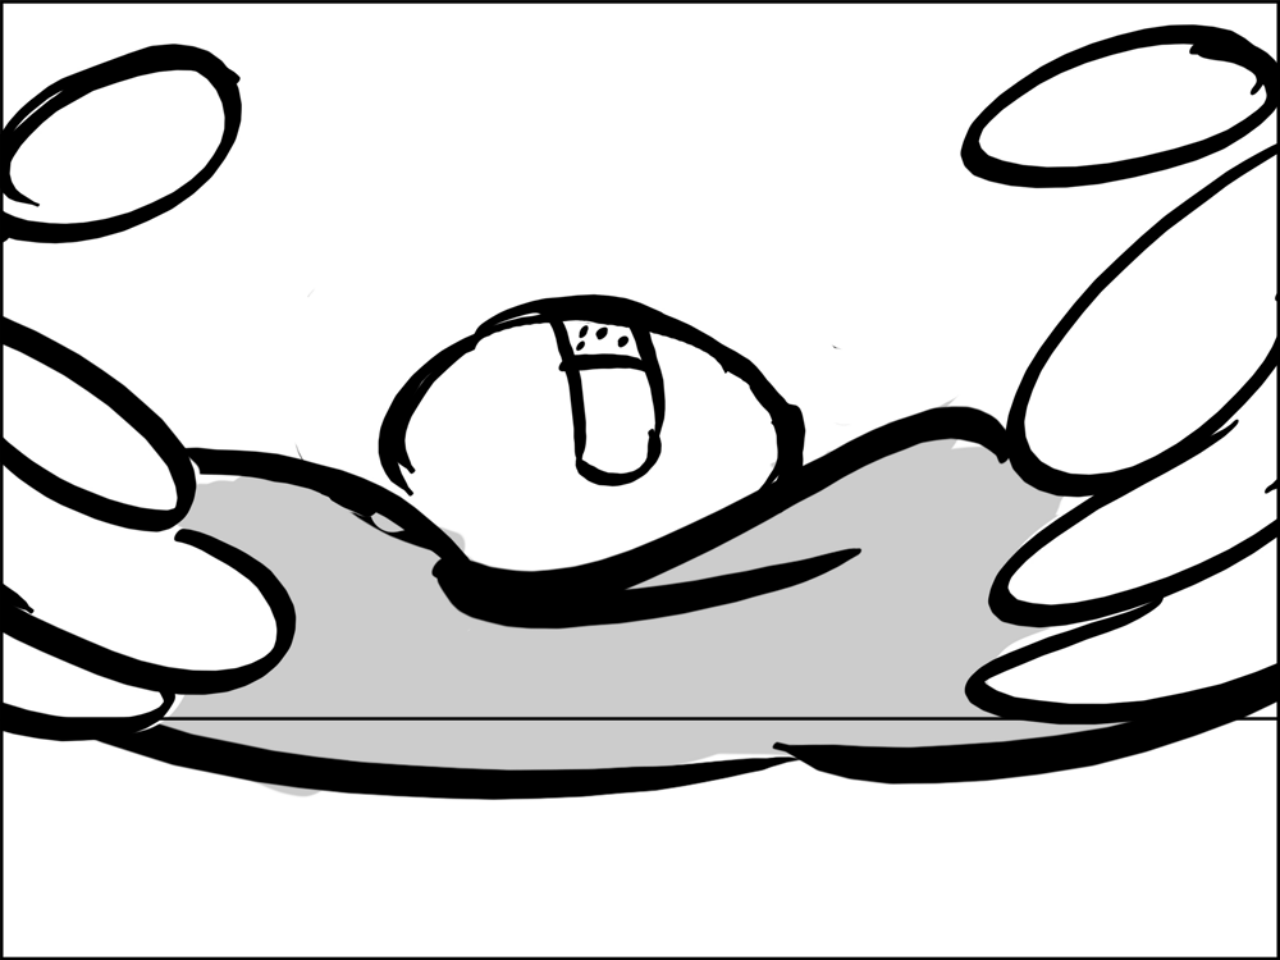

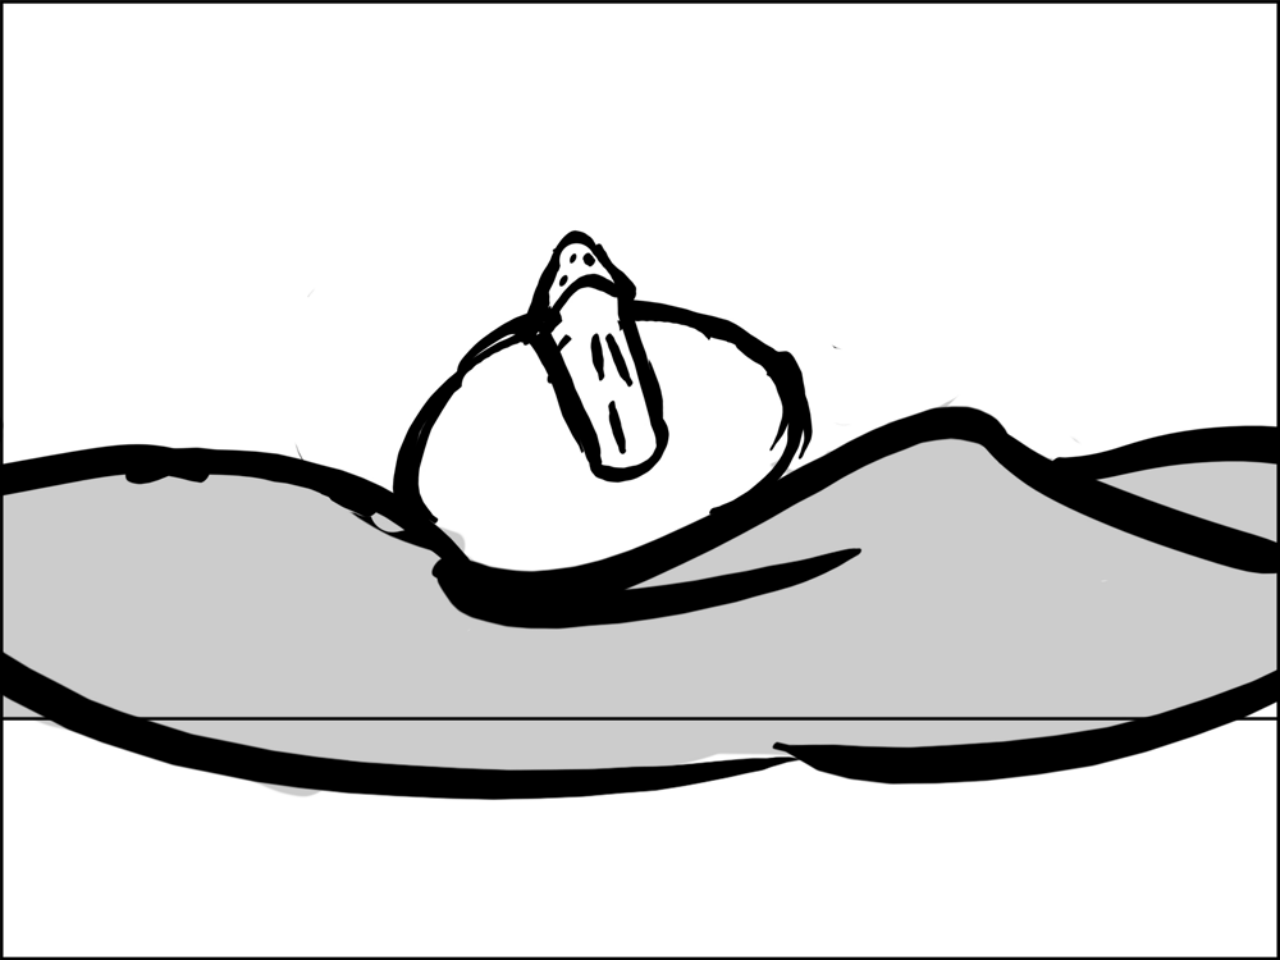

Baymax:
Hiro.

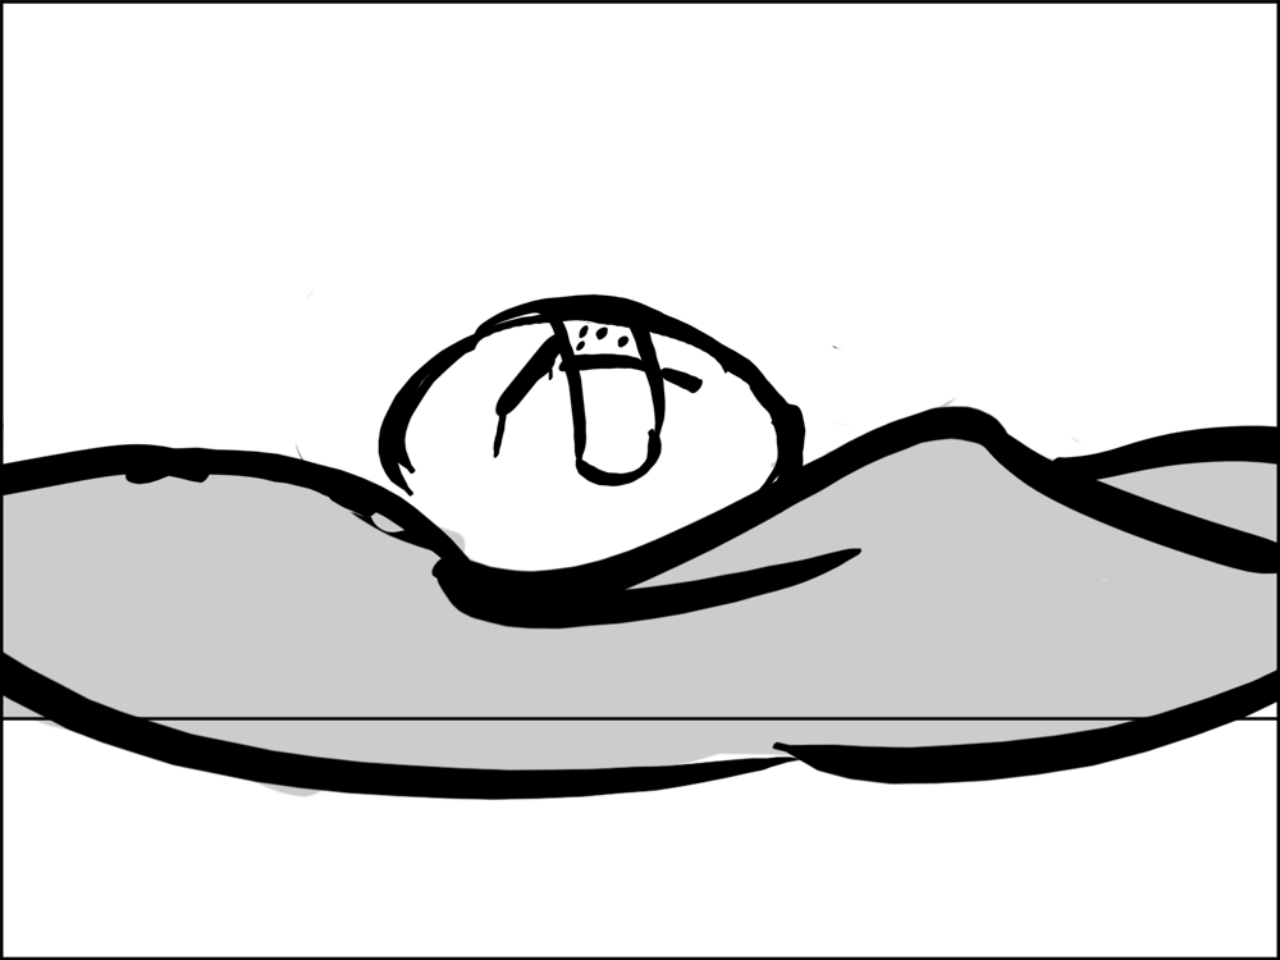

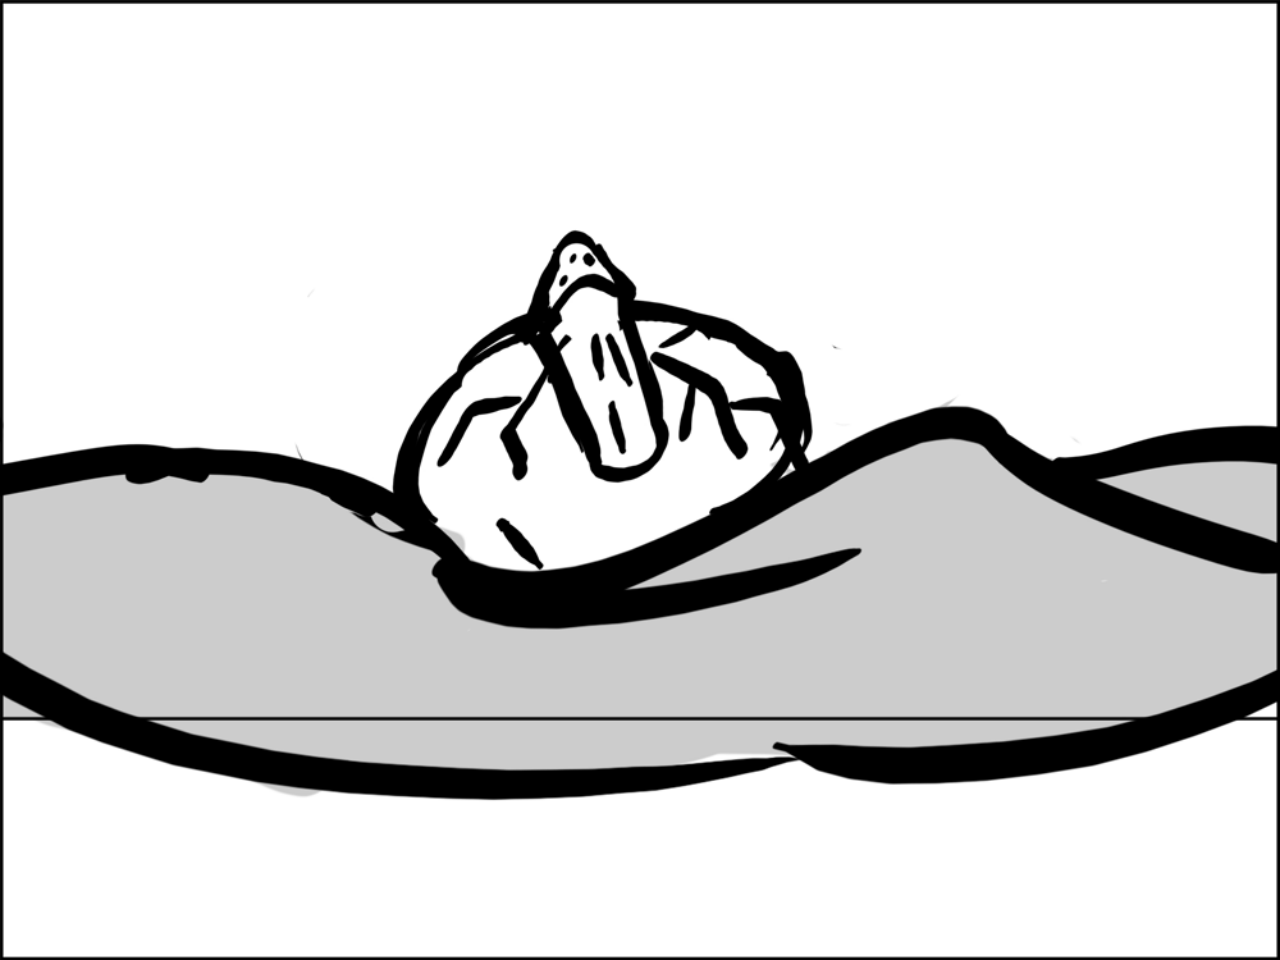

Baymax:
There is activity.

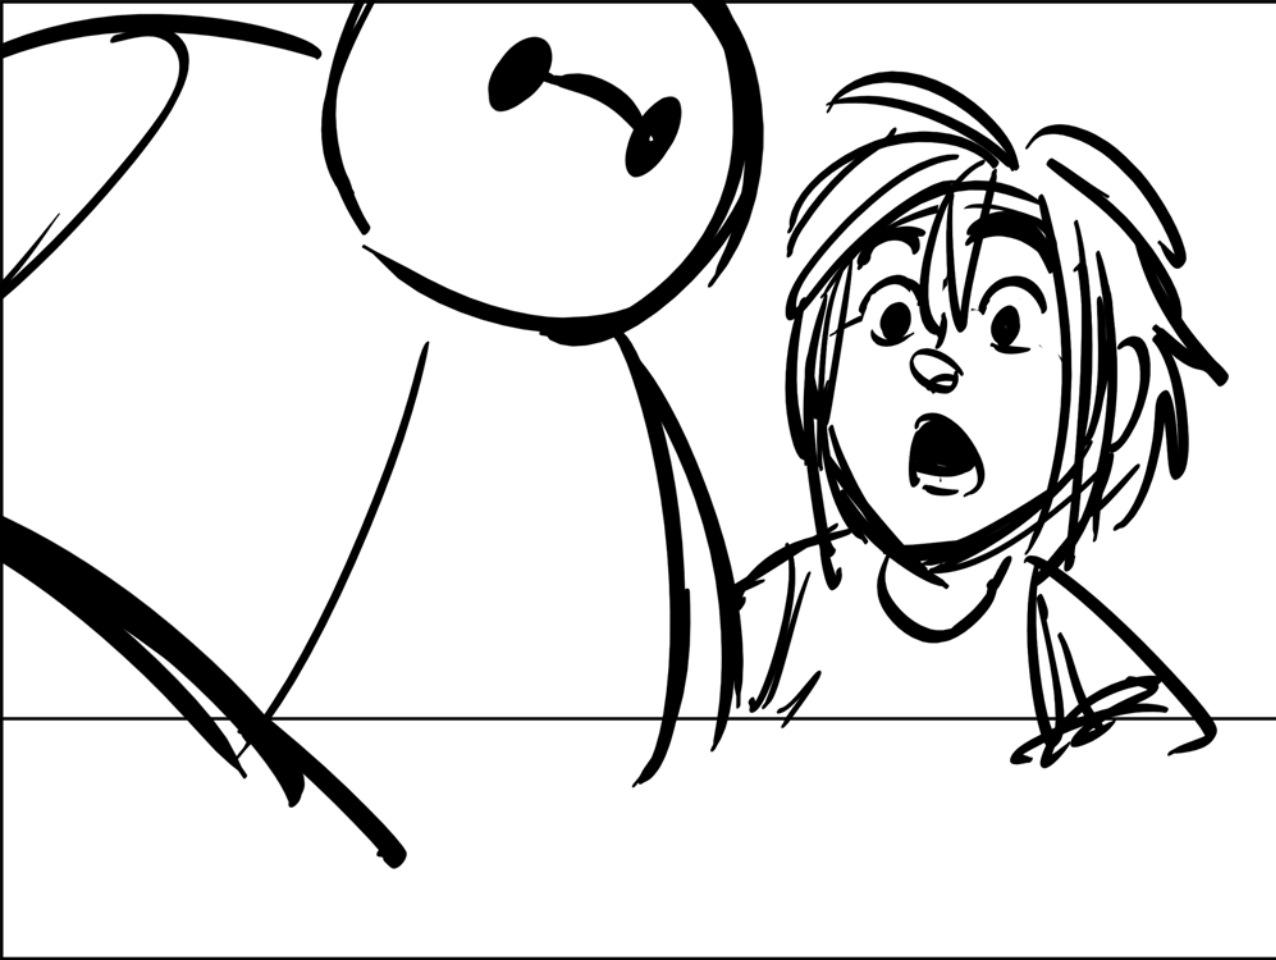

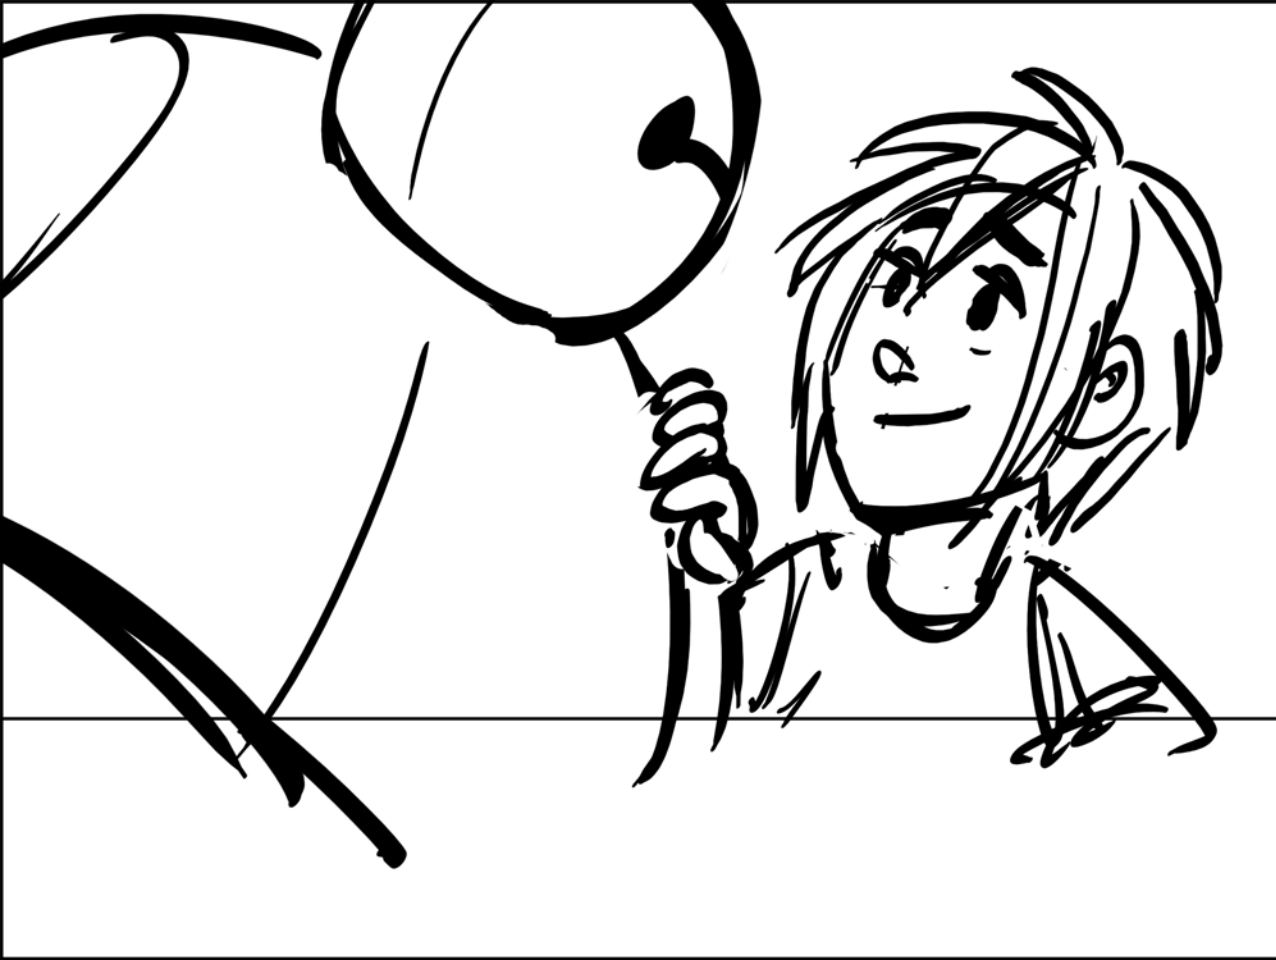

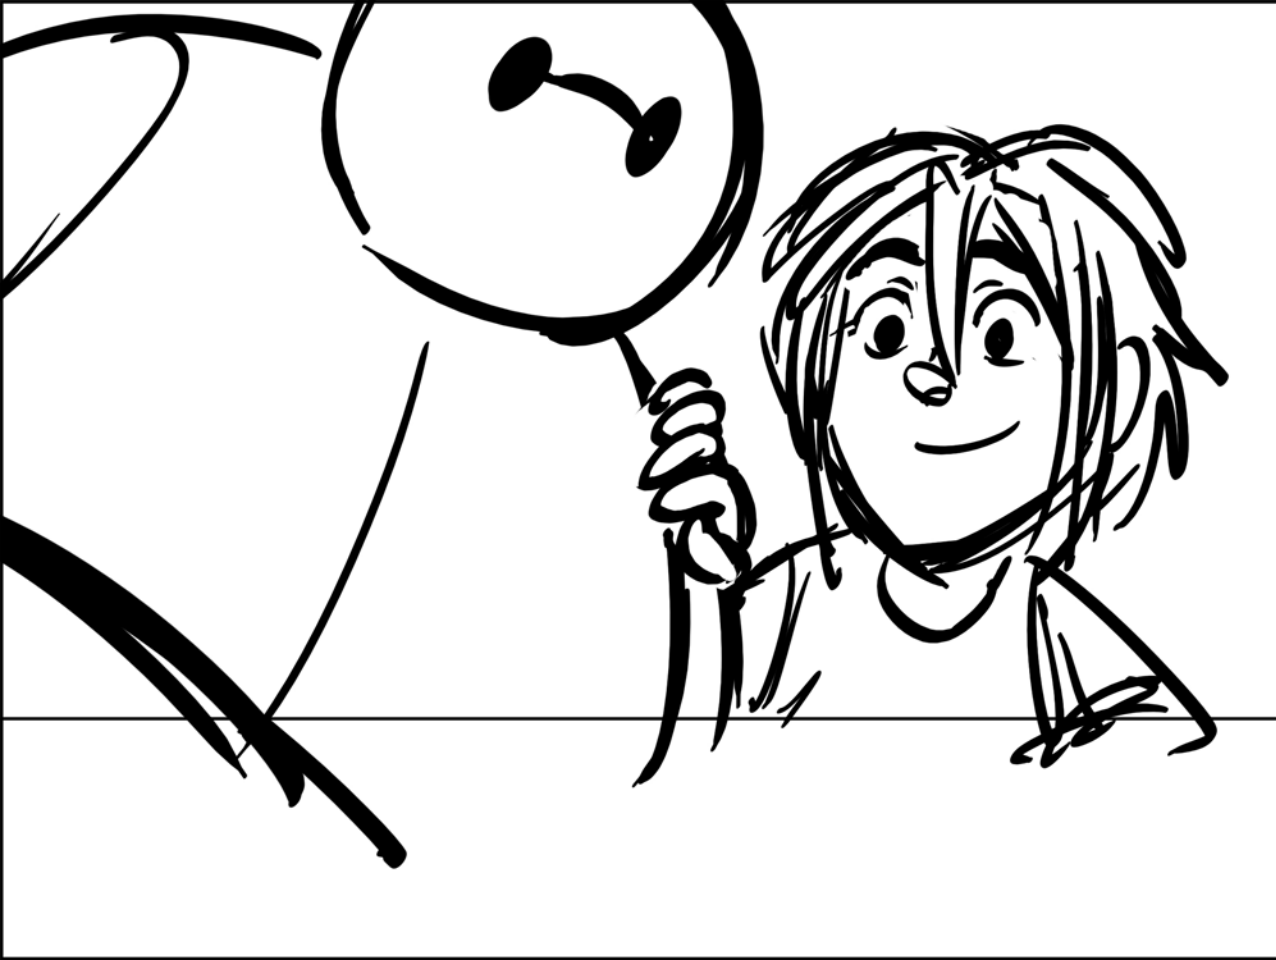

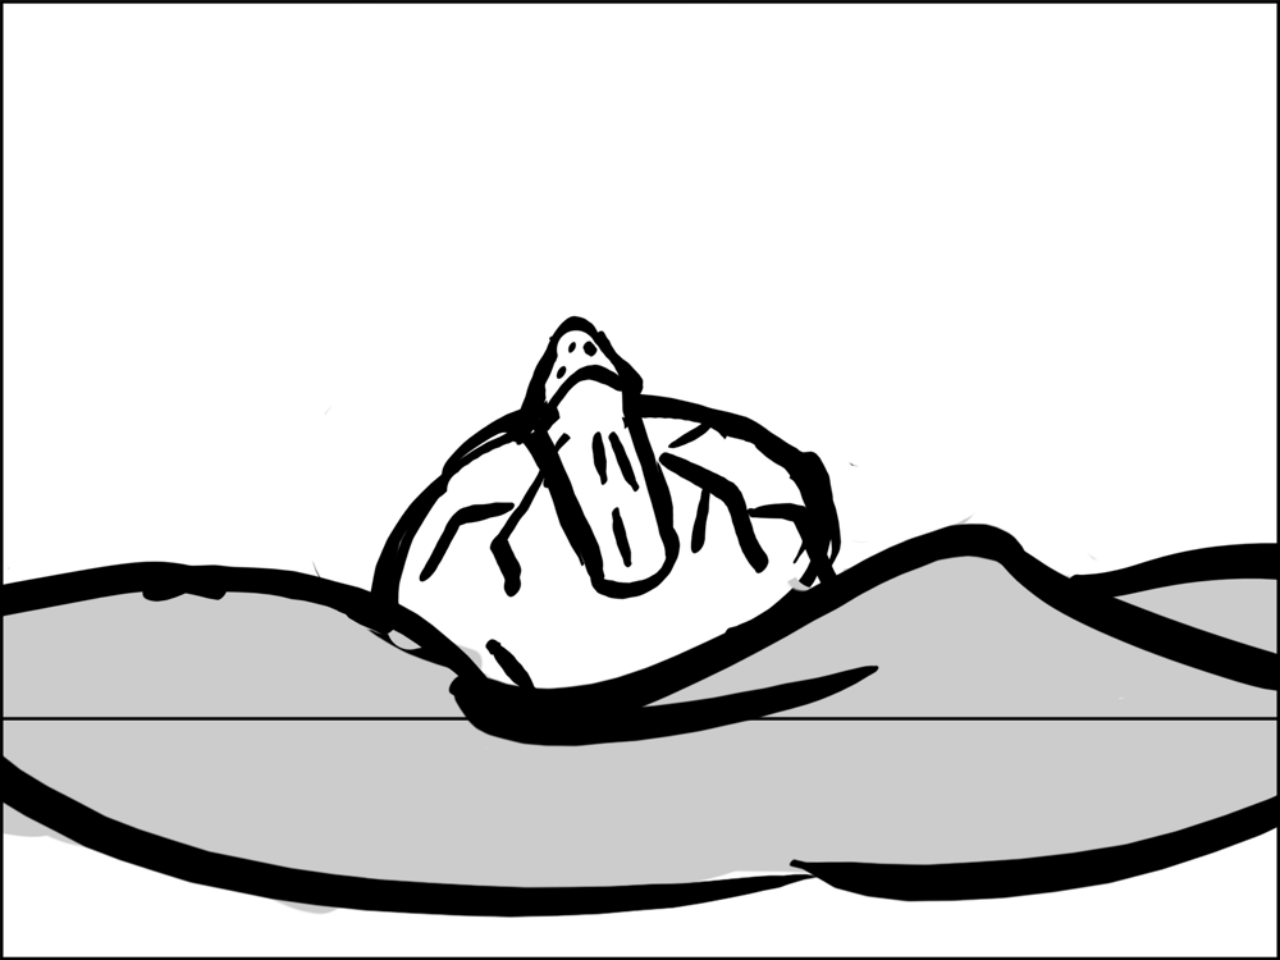

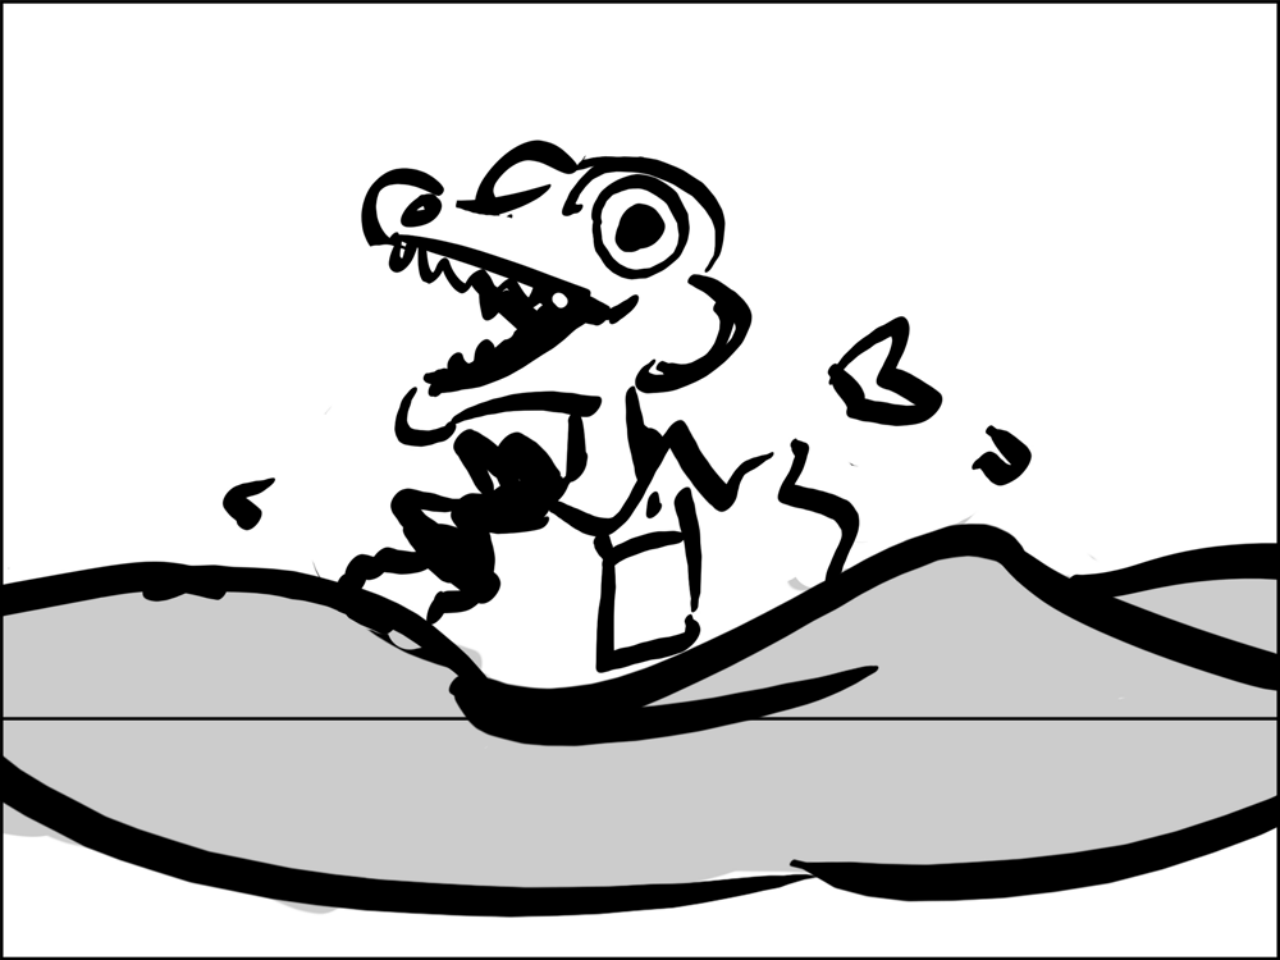

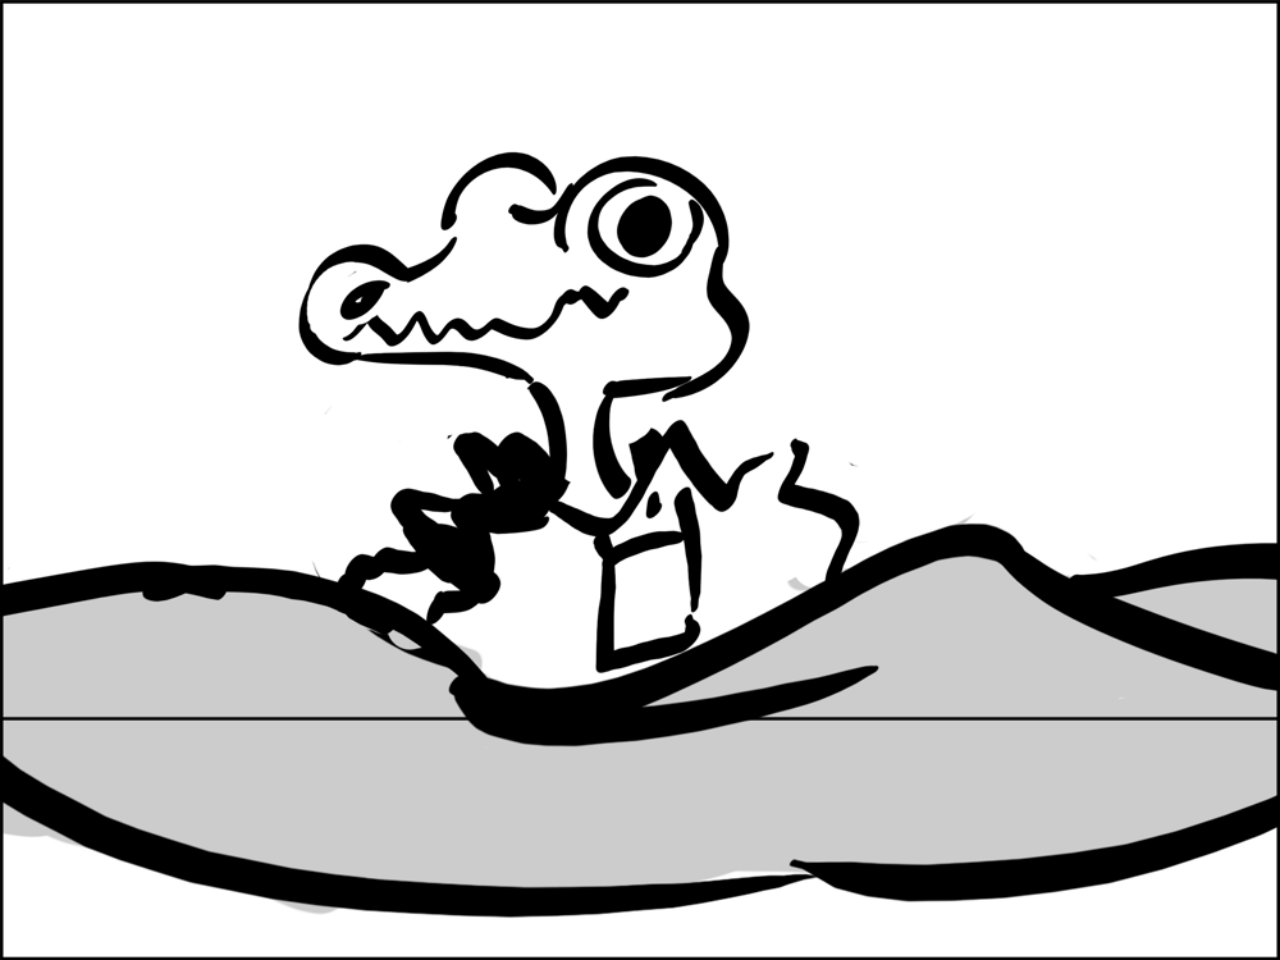

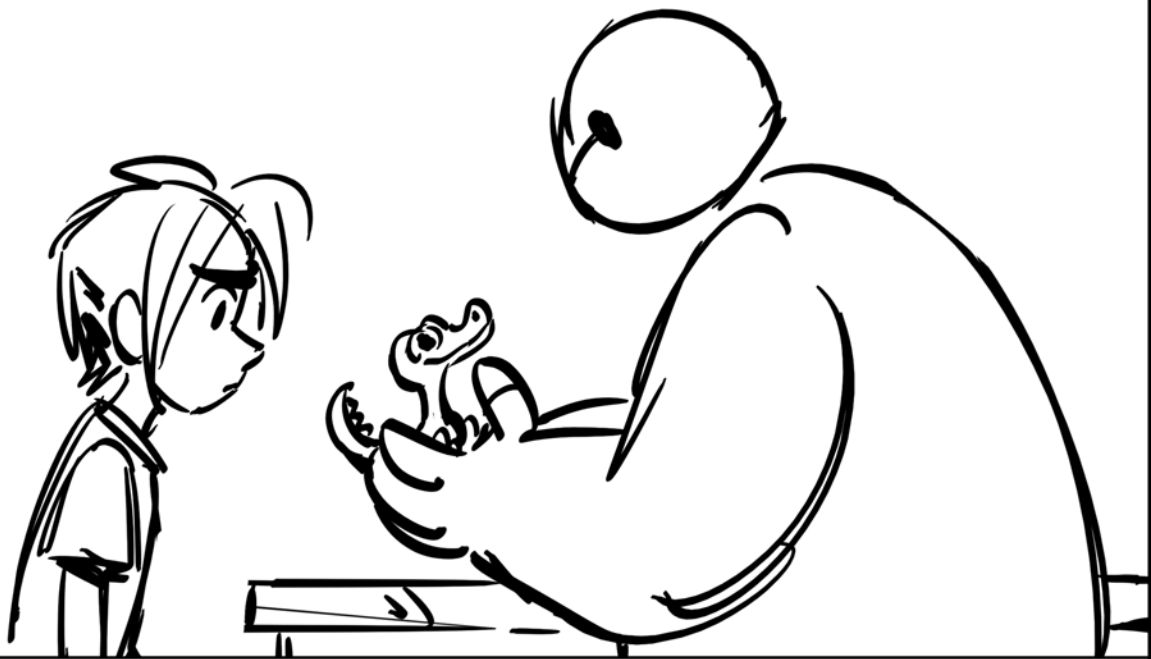

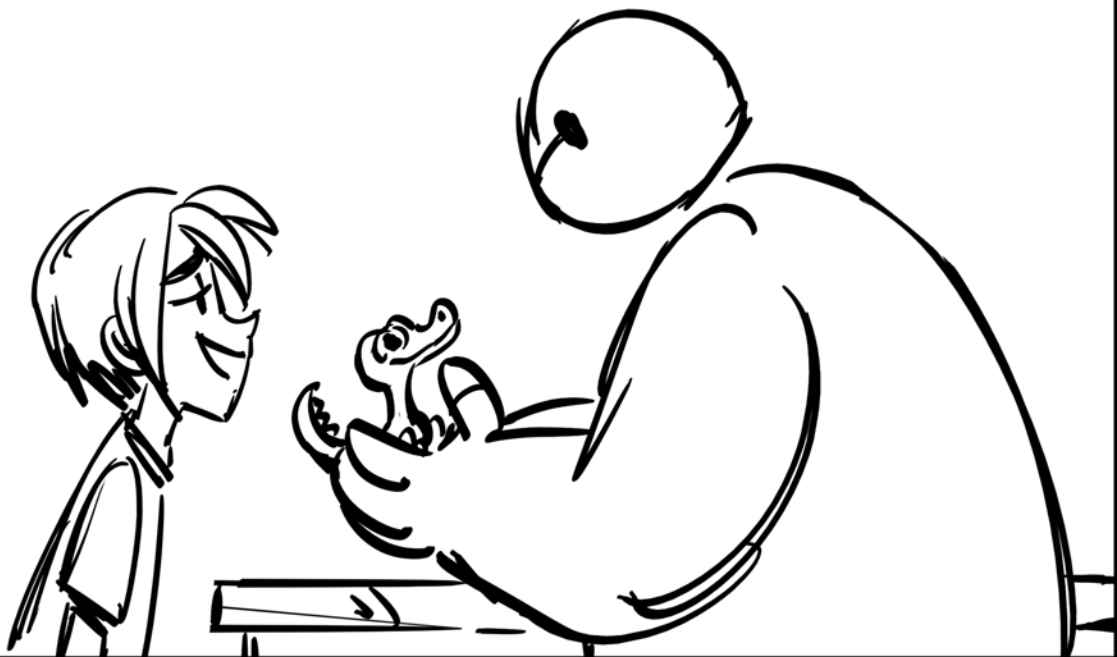

Baymax:

My sensors indicate that this is an invasive
reptilian species.

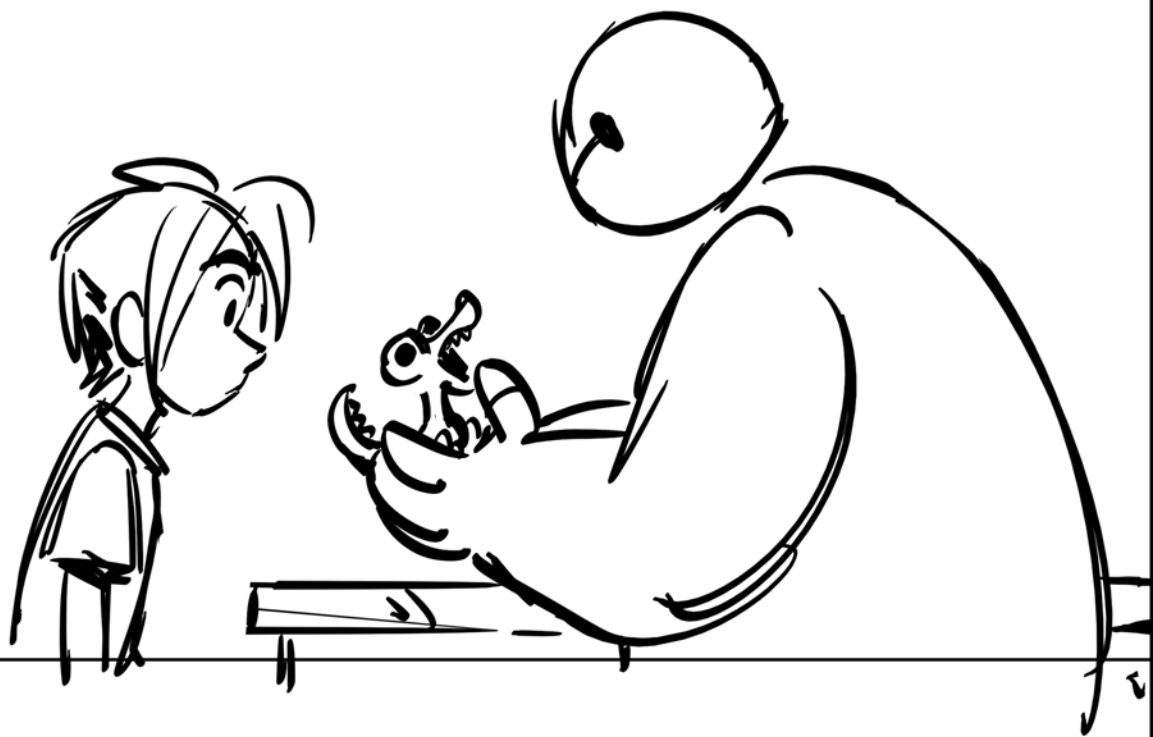

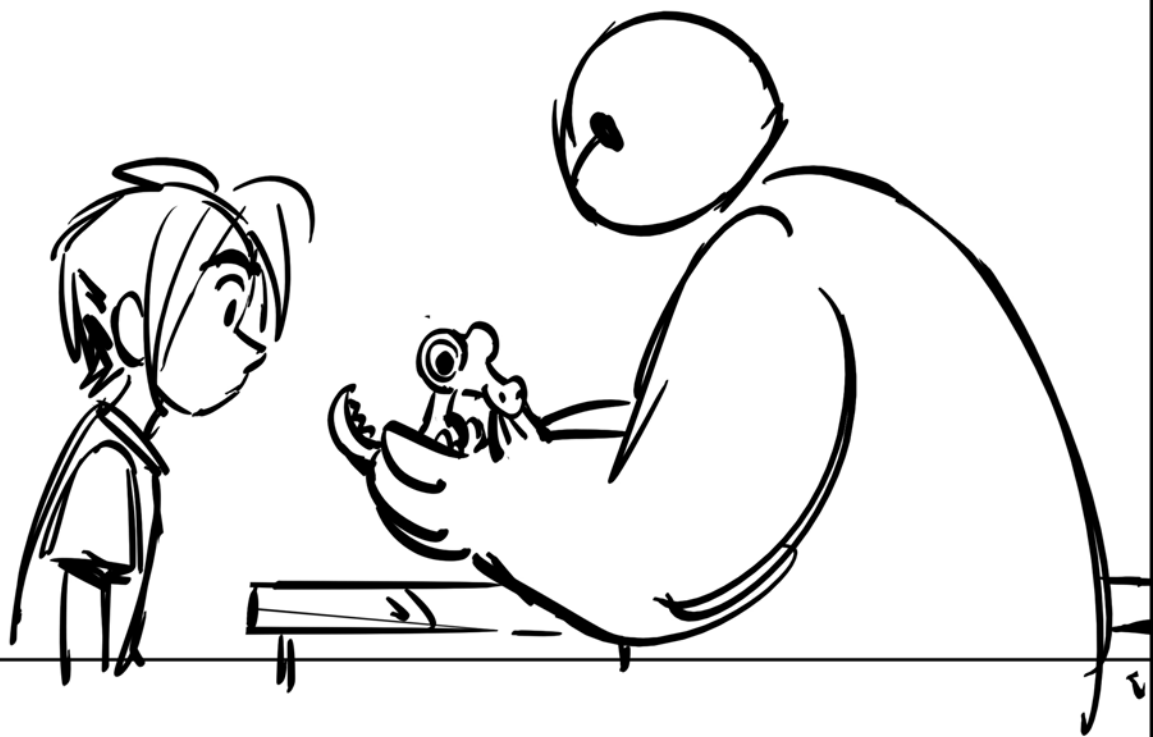

Baymax:

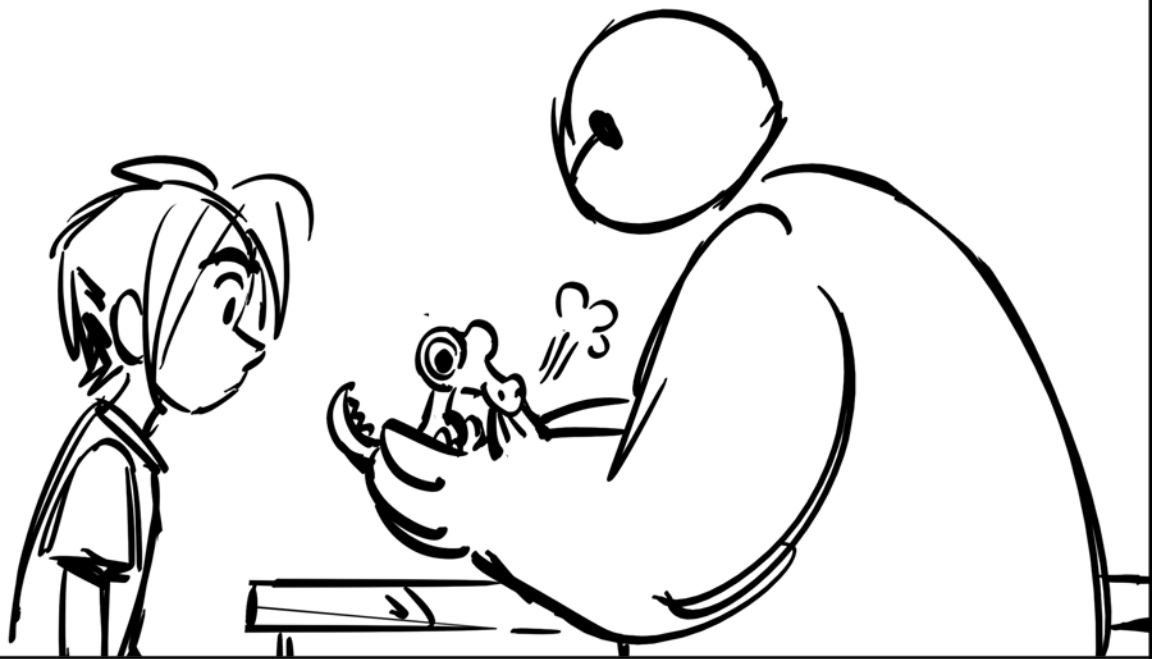

My sensors indicate that this is an invasive
reptilian species.

Hiro:
Heh. Congrats, Baymax. You're a mom.
